BASELINE DOCUMENTATION REPORT

CONTENTS

- Preface
- Preparer's Signature
- Acknowledgment and Donor Certification
- Acknowledgement and Donee Certification
- Introduction/ Background Information
- Ownership Contact Information
- Property Description
  - A) Location and General Description
  - B) Land Characteristics: Hydrology, Topography and Geology, Soils, Ecological Communities
  - C) Conservation Values
  - D) Condition of Property and Environmental Concerns
  - E) Management (Ecological)
  - F) Human-Made Features
- Information on the Resolution Accepting the Gift
- Appendices
  - A) Recorded Conservation Easement
  - B) Title Work
  - C) Maps
  - D) Photo Documentation

PREFACE

The purpose of the following information in this Baseline Document is to describe the physical features and current uses of land on which a Conservation Easement was conveyed to the Southwest Michigan Land Conservancy (SWMLC) on November 30, 2011, and recorded on December 5, 2011, in Liber # 2976, Pages 3248-3255, of the Berrien County Register of Deeds Office, 701 Main Street, St. Joseph, MI 49085. This document is retained at the offices of the Southwest Michigan Land Conservancy and a copy has been given to the landowner's manager and Ronora Lodge & Retreat Center LLC manager, Durward J. Gehring a/k/a Jim Gehring.

This Baseline Document will be used on an annual basis to monitor the condition of the Property and adherence to the provisions detailed by the Conservation Easement.

PREPARER'S SIGNATURE

This baseline documentation report was prepared by Land Protection Specialist Geoffrey D. Cripe. This is to certify that I, Geoffrey D. Cripe, created the following 17 pages plus appendices including document, maps and photographs and they are, to the best of my knowledge, an accurate description of the physical features and current land uses on the subject property. I have been trained by the Southwest Michigan Land Conservancy in the methods to document conservation easement properties and preparation of the baseline report.

PREPARER:

Date: 11/30/2011

Geoffrey D. Cripe
6851 S. Sprinkle Road
Portage, MI 49002

ACKNOWLEDGMENT and DONOR CERTIFICATION

This is to certify that I, Durward J. Gehring a/k/a Jim Gehring, Manager of Ronora Lodge & Retreat Center LLC., the Donor of the Red Tail Parcel 4 Conservation Easement, do accept and acknowledge the following 17 pages plus appendices including document, maps and photographs, as being, to the best of my respective knowledge, an accurate description of the physical features and current land uses on the subject property, and I affirm that there are no activities on-going on this property that are inconsistent with the covenants contained in the Red Tail Parcel 4 Conservation Easement I conveyed to the Southwest Michigan Land Conservancy dated November 30, 2011 and recorded on December 5, 2011 in Liber # 2976, Pages 320-337 of the Berrien County Register Office, 701 Main Street, St. Joseph, MI 49085.

DONOR/OWNER:

_____

Durward J. Gehring a/k/a Jim Gehring, Ronora Lodge & Retreat Center LLC
Its: Manager

STATE OF MICHIGAN)
)ss.
COUNTY OF Kalamazoo)

Acknowledged before me on this 30th day of November, 2011, by Durward J. Gehring a/k/a Jim Gehring, authorized manager of Ronora Lodge & Retreat Center LLC

Notary Public _____

_____ County, Michigan

SARA E. FRASZ
NOTARY PUBLIC, STATE OF MI
COUNTY OF KALAMAZOO
MY COMMISSION EXPIRES Apr 9, 2013
ACTING IN COUNTY OF Kalamazoo

Acting in _____ County

My commission expires:_____

ACKNOWLEDGMENT and SOUTHWEST MICHIGAN LAND CONSERVANCY CERTIFICATION

This is to certify that I, Peter D. Ter Louw, Executive Director, do accept and acknowledge the following ~~15~~ 17 pages plus appendices including documents, maps and photographs as being, to the best of my respective knowledge, an accurate description of the physical features and current land uses on Red Tail Parcel 4 Conservation Easement conveyed to the Southwest Michigan Land Conservancy dated November 30, 2011 and recorded on December 5, 2011 in Liber # 2976, Pages 3210-3235 of the Berrien County Register of Deeds Office, 701 W. Main Street, St. Joseph, MI 49085.

DONEE/ CONSERVANCY:
Southwest Michigan Land Conservancy:

Peter D. Ter Louw

Its: Executive Director

STATE OF MICHIGAN)
)ss.
COUNTY OF Kalamazoo)

Acknowledged before me on this 30th day of November, 2011 by Peter D. Ter Louw, known to me to be the Executive Director of the Southwest Michigan Land Conservancy.

Notary Public _____

SARA E. FRASZ
NOTARY PUBLIC, STATE OF MI
COUNTY OF KALAMAZOO

_____ County, Michigan

Acting in _____ County

My commission expires:_____

INTRODUCTION/ BACKGROUND INFORMATION

Camp Ronora staff and owners Hunter and Darla Leggitt and Durward J. Gehring a/k/a Jim Gehring have been in contact with Southwest Michigan Land Conservancy since 1996 about permanently protecting the bulk of the camp. Camp Ronora accommodates retreats, groups and more, and includes several hundred acres with a secluded private lake, acres of woods, wildlife, pristine pastures and miles of nature trails. The camp also adminsters the Red Tail Equine Center and Camp Rawnora raw foods program.

Ronora Lodge & Retreat Center is on the site of old Camp Watervliet for Girls founded by Dr. Henry Tatter and his wife Velda Jordan Tatter. In 1988 the property was purchased from Dr. Lonnie Myers by three friends, the Leggitt's and Durward J. Gehring a/k/a Jim Gehring who share a love for the land. The owners have restored the historic buildings and increased the number of acres, and will preserve much of this beautiful natural setting with the conservation easements. For the health of Ronora guests and the land, the owners garden organically. All efforts are geared to making Ronora Lodge & Retreat Center a place where, in the words of Dr. Tatter, you can still "feel Mother Earth, sense her balance and find your own."

The owners are extremely conservation-minded and have held out protecting the camp in hopes of a revenue-generating opportunity. That opportunity was realized in 2009 with the EPA 319-funded Paw Paw/Black Rivers Wetland Implementation Grant. Initial projects were identified and when one fell through the owners of Camp Ronora were contacted. The property was also identified as a high priority property for protection in the 2008 Southwest Michigan Land Conservancy (SWMLC) strategic conservation plan for the Paw Paw River Watershed. That plan was created for and incorporated into the Paw Paw River Watershed Management Plan.

The camp contains six parcels of which four of the highest ecological quality were selected for protection. Instead of placing one conservation easement on the entire camp, three separate easements were created (one for Parcels 1 & 2, one for Parcel 4 and one for Parcel 5) in anticipation of a potential future change in ownership of one or more of the parcels that would sever that parcel from the residual camp.

PROPERTY DESCRIPTION

A) LOCATION AND GENERAL DESCRIPTION

Legal Description:

That part of the Southeast Quarter of Section 12, Town 3 South, Range 17 West, described as follows: Commencing at the East Quarter corner of said Section 12; thence South, along the East line of said Section, 675.00 feet; thence North 89 degrees 01 minute 34 seconds West 306.59 feet; thence South 649.00 feet to the center of a row of Maple trees; thence North 88 degrees 18 minutes 00 seconds West, along the centerline of said Maple trees, 1425.70 feet; thence continuing along said centerline of Maple trees, North 87 degrees 31 minutes 00 seconds West 275.7 feet; thence North 88 degrees 15 minutes 06 seconds West 633.85 feet to a point on the North and South Quarter line of said Section, 25.20 feet North 00 degrees 07 minutes 29 seconds West of the Southwest corner of the North Half of the Southeast Quarter of
said Section; thence North 00 degrees 07 minutes 29 seconds West, along said North and South Quarter line, 1288.94 feet to the center of said Section; thence South 89 degrees 03 minutes 12 seconds East, along the East and West Quarter line of said Section, 2643.78 feet to the place of beginning.

Altogether encompassing approximately 76 acres.

Directions:

From the SWMLC office take Sprinkle Road north approximately 3 miles to I-94 West (toward Chicago). Proceed west 39 miles to the M-140 exit (Exit 41). Turn right on M-140 and proceed 2.5 miles north through Watervliet. Take a right Dwight Boyer Road and proceed .5 miles to the entrance drive to Camp Ronora. The property address is 9325 Dwight Boyer Road, Watervliet, MI 49098. Parcel 4 Conservation Easement can be directly accessed off of County Line Road. To access directly, proceed further east on Dwight Boyer Road and turn left on County Line Road. The property is 1 1/2 miles ahead on the left hand side.

Refer to Baseline Documentation Map in **Appendix A** for orientation to the Property.

Surroundings:

The M-140 corridor which bounds the Camp Ronora properties to the west contains a mix of commercial, residential and light industrial uses. Several miles to the west of Camp Ronora, Paw Paw lake is home to over 1,650 residences and the area continues to attract new development and redevelopment. Paw Paw Lake area is a census-designated place for statistical purposes without legal status as a municipality. As of the latest census reported (2000), the population of the Paw Paw Lake CDP is 3,944 persons.

Paw Paw lake is approximately 960 acres and receives the surface waters that pass through Camp Ronora before it empties into the Paw Paw River. The eastern shores of the lake adjacent to M-140 to the east contain condo developments, and medium to high density residential subdivisions.

To the south of Camp Ronora the Paw Paw River flows westerly toward St. Joseph. Dwight Boyer Road to the south of the camp and north of the river is lined with residential strip development.

County Line Road to the east is much more rural with some large intact farm and open space properties on either side. To the north are additional intact natural area and farm properties. Protection of the properties north and east of the camp would provide further protections to the significant wetland complex that stretches to these properties from Camp Ronora.

B) LAND CHARACTERISTICS

Size: 76 acres (Refer to Maps in Appendix C)

1. Hydrology

The property is situated in the Paw Paw River Watershed. The property has medium groundwater recharge and contains seeps and springs in hilly areas. The property contains extraordinarily biodiverse and high quality fen and shrub-carr habitat, containing unique and rare plant species as well as a large wet prairie. Wetland complexes line two small streams, one that receives water from a maintained section of public drain. The stretch of drain on the property has completely naturalized and has functioned without need for maintenance in over 20 years.

Permanent protection of the farmland, forests and wetlands on this property eliminates the future potential for dense urban developments that would add impervious area in and around the wetland complex and put the lake and natural areas in peril. The specification that permitted uses occur outside of designated wetlands further decreases the amount of potential impact through management or other human use. The protection of this property will help maintain the quality and quantity of water in the Paw Paw River as well as Lake Michigan downstream.

2. Topography and Geology

The property is very hilly and ranges between 640-780 feet above sea level. See the Topographic Map in Appendix C for more information. The dominant soil type, Houghton Muck, found along the wetland corridor is characteristic of what is typically found in bottom lands, flood plains or terraces along rivers or streams. Parcel 4 includes upland forests and open fields that contain soils suitable for cropping. The current owners plant hay, a recommended practice to protect against erosion.

3. Soils

The Soil Survey of Kalamazoo County, Michigan (USDA-SCS, 1980) indicates that the majority of the soils found on the Red Tail Parcel 4 Conservation Easement property is Houghton Muck. The property also includes a Riddles Loam 12-18% slopes, a soil of local importance as classified by the USDA. See Appendix C for a soil type map of the property.

There are seven different soil types on the property including:

Map unit: 5 - Houghton muck
This component is on depressions, lake plains. The parent material consists of herbaceous organic material. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is very poorly drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is very high. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of watersaturation is at 0 inches during January, February, March, April, May, June, September, October, November, December. Organic matter content in the surface horizon is about 82 percent. Nonirrigated land capability classification is 3w. This soil meets hydric criteria.

Map unit: 12B - Ockley loam, 2 to 6 percent slopes
This component is on outwash plains. The parent material consists of loamy over sandy and gravelly outwash. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is low. Shrink-swell potential is moderate. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 2e.
This soil does not meet hydric criteria.

Map unit: 13D - Spinks loamy fine sand, 12 to 18 percent slopes
This component is on moraines. The parent material consists of sandy drift. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 4e. This soil does not meet hydric criteria.

Map unit: 14B - Riddles loam, 2 to 6 percent slopes
This component is on till plains. The parent material consists of loamy till. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is high. Shrink-swell potential is moderate. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 2e. This soil does not meet hydric criteria.

Map unit: 14D - Riddles loam, 12 to 18 percent slopes
This component is on till plains. The parent material consists of loamy till. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is high. Shrink-swell potential is moderate. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 4e. This soil does not meet hydric criteria.

Map unit: 56B - Martinsville fine sandy loam, 2 to 6 percent slopes
This component is on lake plains. The parent material consists of stratified loamy lacustrine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is high. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 7 inches. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 2e. This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 13 percent.

Map unit: 56C - Martinsville fine sandy loam, 6 to 12 percent slopes
This component is on lake plains. The parent material consists of stratified loamy lacustrine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is high. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 3e. This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 13 percent.

4. Ecological Communities

Ecological Communities are defined and described according to the Michigan Natural Features Inventory Natural Communities index. The Red Tail Parcel 4 Conservation Easement contains mostly characteristic plant communities of Southwest Michigan and Berrien County. The

majority of the property is wetlands and forest. The forest on the east side of the property (including much of the MWA and the identified AG and BE areas) has been grazed and likely farmed sometime in the past. That forest is characteristic of an early successional dry-mesic southern forest with patches of more mature forest sections. Dry-mesic southern forest is a fire-dependent, oak or oak-hickory forest type on generally dry-mesic sites found south of the climatic tension zone in southern Lower Michigan. This natural community occurs principally on glacial outwash, coarse-textured moraines, sandy glacial lakeplains, kettle-kame topography, and sand dunes. Soils are typically sandy loam or loam and slightly acid to neutral in pH. The canopy layer generally is dominated or codominated by white oak (***Quercus alba***) and black oak (***Quercus velutina***), with white oak being the more frequent dominant.

In the middle of the conservation easement property, there is a large wetland classified as emergent wetland that is a classic wet prairie. Wet prairie is a native lowland grassland occurring on level, saturated and/or seasonally inundated stream and river floodplains, lake margins, and isolated depressions in southern Lower Michigan. It is typically found on outwash plains and channels near moraines. Soils are primarily loam or silt loam of neutral pH and have high organic content. Dominant species include bluejoint grass (***Calamagrostis canadensis***) and cordgrass (***Spartina pectinata***), with sedges (***Carex*** spp.) often important subdominants.

Wet prairie occurs on outwash plains and channels, typically near coarse-textured moraines, within stream or river floodplains, lake margins, and isolated depressions. It is associated with uplands characterized by dry and dry-mesic southern forests, and prior to European settlement, with savanna and prairie communities such as oak openings, oak barrens, mesic prairie, and dry-mesic prairie.

In the southwest corner of the property east is part of a larger wetland complex extending to the west that is indicative of prairie fen and southern shrub-carr. Prairie fen is a wetland community dominated by sedges, grasses, and other graminoids that occurs on moderately alkaline organic soil and marl south of the climatic tension zone in southern Lower Michigan. Prairie fens occur where cold, calcareous, groundwater-fed springs reach the surface. The flow rate and volume of groundwater through a fen strongly influence vegetation patterning; thus, the community typically contains multiple, distinct zones of vegetation, some of which contain prairie grasses and forbs.

Prairie fens occur predominantly within poorly drained outwash channels and outwash plains in the interlobate regions of southern Lower Michigan. This area is comprised of coarse-textured end moraines and ice-contact features (eskers and kames) that are bordered by glacial outwash. Prairie fen often occurs where an outwash feature (channel or plain) abuts a coarse-textured end moraine or ice-contact feature. Historically, the uplands surrounding prairie fens typically supported fire-dependent oak barrens and oak openings. Today, most of the surrounding uplands support closed-canopy oak forest (dry and dry-mesic southern forest), agriculture, or rural residential development.

Prairie fens typically occur as part of large wetland complexes that support a variety of wetland communities including emergent marsh, southern wet meadow, wet prairie, wet-mesic prairie, southern shrub-carr, and rich tamarack swamp. The community is frequently found along both small lakes and the upper reaches of streams and rivers.

Southern shrub-carr is a moderate to long persistent successional shrub community dominated by willows (***Salix*** spp.), dogwoods (i.e., ***Cornus stolonifera***, ***C. foemina***, and ***C. amomum***), winterberry (***Ilex verticillata***), and bog birch (***Betula pumila***). This community is successionally intermediate among a variety of open, herbaceous wetlands (i.e., southern wet meadow, prairie fen, wet-mesic prairie, and lakeplain wet-mesic prairie) and forested wetlands such as rich tamarack swamp and southern hardwood swamp. It typically occurs on saturated, organic soil and is characterized by fluctuating water levels and poor drainage conditions. Southern shrub-carr is found primarily south of the climatic tension zone in southern Lower Michigan and is frequent in other Midwestern states such as Illinois, Indiana, Iowa, Minnesota, and Wisconsin. North of the climatic tension zone, wet-ground, tall shrub communities are typically dominated by tag alder (***Alnus rugosa***) and are classified as northern shrub thicket.

Shrub-carr typically occurs as bands along streams, rivers, and lakes, on glacial lakeplains and outwash plains, and within outwash channels and depressions on ice-contact topography and moraines. Sites are characterized by little to no slope and can range from small pockets or narrow bands to extensive acreages. The community often occurs as part of a large wetland complex, where it may form a transition zone between open herbaceous wetlands and forested wetlands. Shrub-carr is usually found on seasonally inundated, saturated organic soils such as sapric peat with neutral to mildly alkaline pH and the capacity to retain excessive water.

Shrub-carr typically originates when shrub species invade fens, sedge meadows, wet prairies, and prairie fens following an alteration to the fire or hydrologic regime. Fire suppression and events that lower local or regional water tables allow shrubs to colonize open wetlands and assume dominance. Conversely, beaver-induced flooding limits shrub and tree encroachment and maintains open conditions of meadows and fens. The extent of southern shrub-carr in Michigan has greatly expanded since European settlement due to widespread fire suppression, hydrologic alterations, and a dramatic decline in the beaver population.

Once shrub-carr has become established, frequent disturbance allows it to persist rather than succeed to a forested swamp community. Beaver herbivory and windthrow can limit tree longevity and help maintain southern shrub-carr. Given that shrub-carr occurs along streams, rivers, and lake edges, the community is well adapted to seasonal hydrologic cycling. However, prolonged flooding can kill shrubs and cause conversion to shallow ponds, emergent marsh, southern wet meadow, prairie fen, or wet prairie depending on landscape position, soils, and depth and duration of flooding. In the absence of flooding and fire, southern shrub-carr typically succeeds to closed-canopy swamp forest, such as southern hardwood swamp and rich tamarack swamp.

Also in the southwest corner is a natural community called southern hardwood swamp. Southern hardwood swamp is a minerotrophic forested wetland occurring in southern Lower Michigan on mineral or occasionally organic soils dominated by a mixture of lowland hardwoods. Conifers are absent or local. The community occupies shallow depressions and high-order stream drainages on a variety of landforms. The canopy is typically dominated by silver maple (***Acer saccharinum***), red maple (***A. rubrum***), green ash (***Fraxinus pennsylvanica***), and black ash (***Fraxinus nigra***).

Southern hardwood swamp occurs in poorly drained depressions on glacial lakeplain, outwash plains and channels, end moraines, till plains, and perched dunes. Historically, the Maumee Lake Plain in southeastern Michigan supported large areas of lowland hardwood forest that bordered lakeplain prairie, lakeplain oak openings, wet-mesic flatwoods, and mesic southern forest. In large wetland complexes, southern hardwood swamp is typically associated with a variety of other herbaceous, shrub, and forested wetland communities. Upland communities bordering southern hardwood swamp are usually forested, with mesic southern forest being most common

Species List

(**NOTE:** The species lists in this section are not part of a complete inventory. The species listed are those that have been documented on the property during certain visits at particular times of the year. This list may be expanded to include species that are found during future monitoring visits to the Red Tail Parcel 4 Conservation Easement property.)

Observations by Becky Csia, Erin Fuller, Kevin Haight, Hunter Leggitt and Geoffrey Cripe in August, September, and November of 2011.

C) CONSERVATION VALUES

The full list of Conservation Values is stated in Appendix A., Section 2 of the Red Tail Parcel 4 Conservation Easement. These include watershed protection, habitat for rare and threatened species, wetlands, and the addition of adjacent conserved acres to add to conservation values already protected.

D) CONDITION OF THE PROPERTY AND ENVIRONMENTAL CONCERNS

The property is mostly in excellent condition. There are many invasive species on the property including spotted knapweed, oriental bittersweet, Japanese honeysuckle, autumn olive, and multi-flora rose colonizing in areas throughout the property. The largest environmental concern is the potential for some degradation if the public drain channel is ever intensively managed. Speaking with the current drain commissioner, the chances of any maintenance in the corridor that passes through this conservation easement property are slim to none because that section is a highly naturalized stream system that has drained the areas to the northeast without obstacle for decades.

There are no known trespass issues with the neighbors, other than indications of trespass during hunting season. For the most part, the boundaries seem clear and respected. The majority of the surrounding property will also be conserved through conservation easement so future residential development is not an environmental concern. Areas outside of the conservation easement properties that are not conserved will likely be targeted for commercial and residential development as the Paw Paw Lake/Watervliet area and its proximity to Lake Michigan continue to attract residents. The legal condition of the property in the title commitment in Appendix B is free and clear.

E) MANAGEMENT (Ecological)

The owners retain the right to conduct ecological restoration with an approved Ecological Restoration Plan if (a) it is planned and undertaken meeting the following goals and (b) is conducted (i) in accordance with applicable government regulations, (ii) in accordance with a **Management Plan** or an **Ecological Restoration Plan** prepared by a qualified natural resource professional approved in advance by the Conservancy.

Ecological restoration is the process of assisting the recovery and management of ecological integrity with sensitivity to regional and historical context of the landscape. Ecological Restoration includes, but is not limited to, planting native species, removing non-native or invasive species, clear cutting aspen stands to promote regeneration, and implementation of a natural disturbance regime (e.g., fire) appropriate for the Property.

1) *Goals.* The goals are:
   a. to maintain, improve or enhance the overall ecological integrity of the Property (wildlife habitat and species diversity);
   b. to maintain, improve or enhance the scenic character of the Property;
   c. to restore the biodiversity, function, and ability of the property to reasonably accommodate normal disturbances;
   d. to conserve native plant and animal species;
   e. to protect water quality, wetland, and riparian zones; and
   f. to minimize soil disturbance and erosion.

The **Ecological Restoration Plan** shall be provided to the Conservancy for the Conservancy's review and written approval under the provisions of **Paragraph 8**. The Conservancy shall review and either approve or notify the Owner of any deficiencies in the Plan that relate to protecting the Conservation Values of the Property. The Conservancy's written approval may be withheld only upon a reasonable determination by the Conservancy that the proposed action(s) would be inconsistent with the purposes of this Conservation Easement or detrimental to the Conservation Values of the Property.

The Owner retains the right to maintain agricultural operations on the Property. Agricultural and Open Space use is permitted in areas designated as **Agriculture (AG)** on the **Baseline Documentation Map** and is defined as the planting and harvesting of crops, nursery stock, and trees for silviculture. Agricultural management operations shall employ generally accepted agricultural management practices as defined and recommended in the Michigan Right-to-Farm Act, Public Act 93 of 1981, as amended, MCL 286.472, 286.473, and 286.474, or successor provisions then applicable, that address soil and water conservation, pest management, nutrient management and other management practices. If the Owner, wishes to manage the **Agriculture** in whole or in part as non-agricultural open-field, the Owner maintains the right to cut vegetation or harvest any trees that may grow in areas designated as **Agriculture** on the **Baseline Documentation Map**, regardless of whether any such trees were planted or encroached into the

existing open space area through natural succession. The Owner may mow, burn or otherwise remove vegetation in this area provided any such vegetation removal is done to maintain the open space character of the Property, and provided it remains in some vegetative cover such as grass. More details for these provisions are provided in the conservation easement document.

The owner also retains the right to harvest trees in the forest according to this language in the easement. The Owner retains the right to conduct the following forestry activities on the Property in area designated as **Managed Woodland** on the **Baseline Documentation Map**.

a. Cutting or removing trees or other vegetation is permitted to remove dangerous trees, reduce a natural threat of infestation posed by diseased vegetation, or control invasive and/or non-native plant species.

b. Removal of dead and downed trees for firewood for the Owners personal use is permitted provided that such harvest does not exceed ten (10) full cords of wood in any one (1) calendar year.

c. Forest management for the growth and harvest of trees is permitted if (i) it is planned and undertaken meeting the conditions specified in the easement **Paragraph 5F2** below, (ii) it is conducted in accordance with a Forest Management Plan as described in the easement **Paragraph 5F3** below, and (iii) it is conducted in a manner not detrimental to the purposes of this Conservation Easement or detrimental to the Conservation Values of the Property described in **Paragraph 2**.

2) *Conditions*. Any forest management activity on the Property must meet the following conditions:

a. Minimize soil disturbance and erosion;
b. Protect water quality, wetland, and riparian zones;
c. Maintain or improve the overall quality of the forest (habitat, species diversity, and forest productivity);
d. Conserve the scenic quality of the Property; and
e. Conserve native plant and animal species.

There can be structures built in the 2.2 acre building envelope as well as management to maintain the open character, gardening, and stabling of livestock. There are currently trails on the property; however, the owner retains the right to create and maintain trails for use of the property. The owner retains the right to equestrian riding on designated trails throughout the property outside of designated wetlands except for allowances where existing trails through wetlands connect two open spaces. The owners are allowed to operate motorized vehicles off trails and two tracks to accomplish activities expressly permitted in Section 4 of the conservation

easement. However, if the Conservancy determines that motorized vehicle use is adversely impacting the Conservation Values, it may, at its discretion, modify or eliminate the right to use motorized vehicles.

F) HUMAN-MADE FEATURES

There are human-made features within the Conservation Easement boundaries, all of which are pictured in Appendix D. There is a limited amount of fencing along the north property line within the Open Space (OS). All total there is currently 0 square feet of impervious surface in the BE and there can be 5,000 square foot surface area built to total 5,000 impervious square feet in the BE.

The bulk of the camp structures and the immediate area surrounding the camp that gets the most human use is excepted from this conservation easement.

INFORMATION on the RESOLUTION ACCEPTING the GIFT

The SWMLC Board of Directors approved the partial purchase of development rights for the Red Tail Parcel 4 Conservation Easement at its September 22, 2011 meeting held at the offices of Houser & Baiers PC, 8120 Moors Bridge Road, Suite C, Portage, Michigan 49024.

RED TAIL PARCEL 4 CONSERVATION EASEMENT

DATE: **November 30, 2011**

DONOR/OWNER: **Ronora Lodge & Retreat Center LLC, Durward J. Gehring a/k/a James Gehring a/k/a Jim Gehring, Manager, whose address is P.O. Box 111, Watervliet, MI 49098 and its heirs, executors, administrators, designated successors and designated assigns.**

DONEE/CONSERVANCY: **Southwest Michigan Land Conservancy, Inc. a Michigan nonprofit corporation, "Conservancy", whose address is 6851 South Sprinkle Road, Portage, Michigan 49002, its successors and assigns.**

For purposes of this Conservation Easement, the Donor, who is the current Owner, and all subsequent Owners of the subject Property, will be referred to as the "Owner" throughout this Conservation Easement. The Donee will be referred to as the "Conservancy" throughout this Conservation Easement.

Berrien County Register of Deeds
Received 12/5/11 Time 9:24:06 AM

11-21

PROPERTY: **A parcel of land situated in the County of Berrien, Township of Watervliet, State of Michigan, described as follows:**

That part of the Southeast Quarter of Section 12, Town 3 South, Range 17 West, described as follows: Commencing at the East Quarter corner of said Section 12; thence South, along the East line of said Section, 675.00 feet; thence North 89 degrees 01 minute 34 seconds West 306.59 feet; thence South 649.00 feet to the center of a row of Maple trees; thence North 88 degrees 18 minutes 00 seconds West, along the centerline of said Maple trees, 1425.70 feet; thence continuing along said centerline of Maple trees, North 87 degrees 31 minutes 00 seconds West 275.7 feet; thence North 88 degrees 15 minutes 06 seconds West 633.85

feet to a point on the North and South Quarter line of said Section, 25.20 feet North 00 degrees 07 minutes 29 seconds West of the Southwest corner of the North Half of the Southeast Quarter of said Section; thence North 00 degrees 07 minutes 29 seconds West, along said North and South Quarter line, 1288.94 feet to the center of said Section; thence South 89 degrees 03 minutes 12 seconds East, along the East and West Quarter line of said Section, 2643.78 feet to the place of beginning.

Altogether encompassing approximately 76 acres.

CONVEYANCE: The Owner conveys and warrants to the Conservancy a perpetual Conservation Easement over the Property. The scope of this Conservation Easement is set forth in this agreement. This easement was purchased, in part, with funds through a Non-Point Source Pollution Grant with the Michigan Department of Environmental Quality, and as consideration for the grants and conveyances made herein, payment has been made to Owner in the amount of Thirteen Thousand Three Hundred Sixty Five Dollars ($13,365), increased or decreased to reflect closing adjustments and pro-rations, the receipt and adequacy of which is hereby acknowledged. This payment is equivalent to roughly 25% of the appraised value of development rights. This conveyance is thus, in part, a gift from the Donor to the Conservancy.

THE OWNER AND THE CONSERVANCY AGREE TO THE FOLLOWING:

1. PURPOSES OF THIS CONSERVATION EASEMENT AND COMMITMENTS OF THE OWNER AND THE CONSERVANCY.

   A. This Conservation Easement:
      1) Protects a natural habitat for fish, amphibians, and reptiles with areas of fen, emergent wetlands, scrub-shrub wetland, forested wetland and forested uplands and open spaces which support a diversity of plants and animals including the Eastern Massasauga Rattlesnake, a Federal candidate species for endangered listing status and also a State of Michigan species of Special Concern.
      2) Protects a significant intact and pristine upland/wetland complex with extensive watershed values to the larger Paw Paw River Watershed (PPRW).
      3) Protects land adjacent to 134 acres of conservation lands that will be protected concurrently with this Conservation Easement.
      4) Preserves open space and will yield a significant public benefit
         a) Pursuant to a clearly delineated Federal, State, or local governmental conservation policy,
         b) For the scenic enjoyment of the general public with views from the

public roadway known as County Line Road.

These purposes will be referred to as the "Purposes" in this Conservation Easement.

A. The Owner of the Property is committed to preserving the Conservation Values of the Property. The Owner agrees to confine use of the Property to activities consistent with the Purposes and the preservation of the Conservation Values. Any uses of the Property which may impair or interfere with the Conservation Values are expressly prohibited.

B. The Conservancy (i) is a qualified holder of this Conservation Easement committed to preserving the Conservation Values of the Property and upholding the terms of this Conservation Easement (ii) is a tax-exempt, nonprofit Michigan corporation qualified under Internal Revenue Code Sections 501(c)(3) and 170(h)(3), (iii) has the resources to enforce this Easement, (iv) protects natural habitats of fish, wildlife, plants, and the ecosystems that support them and (v) preserves open spaces, including farms and forests, where such preservation is for the scenic enjoyment of the general public or pursuant to clearly delineated governmental conservation policies and where it will yield a significant public benefit.

2. **CONSERVATION VALUES.** The Property possesses natural, scenic, historic, open space, scientific, biological, and ecological values of prominent importance to the Owner, the Conservancy, and the public. These values are referred to as the "Conservation Values" in this Easement. Certain Conservation Values may have relevance to more than one Purpose, even though they are listed only once. The Conservation Values include the following:

A. **The Property contains significant natural habitat in which fish, wildlife, plants or the ecosystems which support them, thrive in a natural state, as demonstrated by:**

WILDLIFE HABITAT

1) The Property provides vital corridor wetlands and upland wildlife habitats for the state of Michigan species of Special Concern Eastern Massasauga Rattlesnake, also a candidate species for protected status on the Federal Endangered Species List. The Eastern Massasauga Rattlesnake inhabits the Property in large numbers. The Property also protects habitat for the Blanding's Turtle and Red-Shouldered Hawk, both state species of Special Concern.
2) The Property contains natural areas that represent high quality examples of terrestrial or aquatic communities including fen, emergent wetlands, forested swamp, and scrub-shrub swamp.
3) High quality habitat on the Property serves as a connection for wildlife

movement and creates a natural "greenway" that connects to adjacent upland/wetland habitat totaling 134 acres that is being protected concurrently with this Conservation Easement, thus expanding the greenway to over one combined mile of natural area just east of Paw Paw Lake.

4) The Property is noteworthy for the excellent quality of the fen which includes unique and rare plant species such as the carnivorous pitcher plant and showy lady slippers, and a beautiful open meadow with plant species indicative of a Southern wet meadow. The Property's habitats are home to biodiverse vegetation, birds, mammals, aquatic invertebrates, reptiles, and amphibians.

5) Valued native forest land exists on the Property, which includes several 200 year old maples, diverse native species, trees of many age classes and structural diversity, including a multi-story canopy, standing dead trees and downed logs.

WATERSHED PROTECTION

1) The Property provides important natural land within the watershed of Paw Paw Lake and larger PPRW. Protection of the Property in its largely unfragmented natural and open space condition helps to ensure the quality and quantity of water resources for the greater Watervliet area.

2) Wetlands, as described in Wetland Protection, Part 303 of the Michigan Natural Resources and Environmental Code MCL 324.30301 et seq., identified as important natural resources for the people of the State of Michigan, are present on the Property. Wetland communities are wide-ranging, and include, forested swamp, fen and other scrub-shrub wetland, and emergent wetland. Specifically, 32% of the property, approximately 24.5 acres, is designated wetland as classified by the U.S. Fish and Wildlife National Wetlands Inventory. The majority, 16.7 acres is designated emergent wetland. 4.1 acres is designated forested wetland, and the remaining 3.7 acres is scrub-shrub wetland that can be further classified as a fen. A combination of healthy wetland areas with diverse adjacent upland areas enables a broad diversity of plant communities to thrive on the site.

3) The Property was identified as a priority parcel for conservation in the 2006 Michigan Department of Environmental Quality (MDEQ) 319 funded management plan prepared for the watershed. According to this 2006 PPRW Management Plan, the wetland resource base in the PPRW has undergone significant disruption in the 200 years since Michigan was settled. According to an MDEQ wetland functionality assessment for the PPRW, **Designated Wetlands** on the Property score highly for the provision of the following critical functions: flood water storage, streamflow maintenance, nutrient transformation, shoreline stabilization, sediment retention, waterfowl/waterbird habitat, and amphibian habitat. These Designated Wetlands additionally score in the medium range for

provision of shorebird habitat and conservation of imperiled wetlands. Protection of this Property ensures the protection of land that contributes greatly to sustaining the water quality and quantity of the larger PPRW.

PROXIMITY TO PROTECTED LANDS

1) The Property lies directly adjacent to the following properties, being concurrently conserved, which similarly preserve the existing natural habitat:
   a) Red Tail Parcels 1 & 2 Conservation Easements, Southwest Michigan Land Conservancy, Watervliet Township, Section 12 and 13.
   b) Red Tail Parcel 5 Conservation Easement, Southwest Michigan Land Conservancy, Watervliet Township, Section 13.
2) The Property lies is less than one (1) mile from the following conserved properties which similarly preserve the existing natural habitat:
   a) Site Number 04-11-0130 Conservation Easement, Michigan Department of Environmental Quality, Watervliet Township, Section 11.
   b) Woodland Nature Conservancy, Woodland Nature Conservancy, Watervliet Township, Section 14.
3) Preservation of the Property enables the Owner to integrate the conservation values with other neighboring lands.

B. **The Property provides open space for the scenic enjoyment of the general public and will yield a significant public benefit through:**

SCENIC VIEWSHED

1) A scenic landscape and natural character which would be impaired by modification of the Property.
2) A scenic panorama visible to the public from publicly accessible roadway known as County Line Road which would be adversely impacted by modifications of the natural habitat.
3) Relief from urban closeness as the village of Watervliet expands.
4) Biological integrity of other land in the vicinity has been subdivided and modified by intense urbanization, and the trend is expected to continue.
5) There is a reasonable possibility that the Conservancy may acquire other valuable property rights on additional nearby or adjacent properties to expand the Conservation Values preserved by this Conservation Easement.
6) The Property is located within Watervliet Township, an area that has grown rapidly with residential development over the past century, especially around Paw Paw Lake, a trend that is expected to continue.
7) The Property is desirable for substantial residential development because of its size, location in the Paw Paw Lake area, and incredible scenic vistas and high quality forest, open space and natural areas; and in the absence of this Conservation Easement the Property could be developed in a manner

that would destroy the Conservation Values.

C. **The Property is preserved pursuant to a clearly delineated federal, state, or local conservation policy and yields a significant public benefit. The following legislation, regulations, and policy statements establish relevant public policy:**

PUBLIC LAW

The State of Michigan has recognized the importance of protecting our natural resources as delineated in the 1963 Michigan Constitution, Article IV, Section 52, "The conservation and development of the natural resources of the state are hereby declared to be of paramount public concern in the interest of the health, safety, and general welfare of the people. The legislature shall provide for the protection of the air, water, and other natural resources of the state from pollution, impairment, and destruction."

1) Conservation and Historic Preservation Easement, Sub part 11 of Part 21 of the Michigan Natural Resources and Environmental Protection Act - MCL §§ 324.2140 *et seq.*;
2) Biological Diversity Conservation, Part 355 of the Michigan Natural Resources and Environmental Protection Act – MCL §§ 324.35501 *et seq;* (Legislative Findings § 324.35502);
3) Wetland Protection, Part 303 of the Michigan Natural Resources and Environmental Act - MCL §§ 324.30301 *et seq.*; (Legislative Findings MCL § 324.30302);
4) Water Pollution Control Act of 1972, 33 USC §§ 1251 - 1387 (§1251 Goals & Policy; § 1344 Wetlands permitting, aka "Section 404" Clean Water Act.);
5) Inland Lakes and Streams, Part 301 of the Michigan Natural Resources and Environmental Protection Act - MCL §§ 324.30101 *et seq.*;
6) Great Lakes Submerged Lands, Part 325 of the Michigan Natural Resources and Environmental Protection Act - MCL §§ 324.32501 *et seq.*;
7) Farmland and Open Space Preservation, Part 361 of the Michigan Natural Resources and Environmental Protection Act - MCL §§ 324.36101 *et seq.*;
8) Soil Conservation, Erosion, and Sedimentation Control, Parts 91 & 93 of the Michigan Natural Resources and Environmental Protection Act – MCL §§ 324.9101 *et seq;* 324.9301 *et seq*; (Legislative Policy § 324.9302); and
9) The 2006 Michigan Department of Environmental Quality-funded Paw Paw River Management Plan, identifies this Property as a priority parcel for conservation based upon its significance toward the overall protection of water quality and quantity in the Paw Paw River Watershed.

3. **BASELINE DOCUMENTATION.** Specific Conservation Values of the Property have been documented in a natural resource inventory signed by the Owner and the Conservancy. This "Baseline Documentation Report", which is incorporated herein by reference, consists of maps, a depiction of existing human-made modifications,

prominent vegetation, identification of flora and fauna, land use history, distinct natural features, and photographs. The parties acknowledge that the Baseline Documentation Report is an accurate representation of the Property at the time of this donation. The Conservancy may use the Baseline Documentation Report in enforcing the provisions of this Conservation Easement but is not limited to the use of the Baseline Documentation Report to show a change in conditions. Any characterization of the terms of this Conservation Easement contained in the Baseline Documentation Report shall not be interpreted so as to alter, amend, or otherwise modify this Conservation Easement. In any conflict or inconsistency between the terms of this Conservation Easement and the Baseline Documentation Report, the terms of this Conservation Easement shall prevail.

4. **PROHIBITED ACTIONS.** Any activity on, or use of, the Property that is inconsistent with the Purposes or that is detrimental to the Conservation Values is expressly prohibited. By way of example, but not by way of limitation, the following activities and uses are expressly prohibited:

A. **Subdivision.** The legal or defacto subdivision of the Property, including any subdivision, short subdivision, platting, binding site plan, testamentary division, creation of a site condominium or other submission of the Property to a condominium form of ownership, or other process by which the Property is divided into lots or in which title to different portions of Property are held by different owners is prohibited.

B. **Commercial Activities.** Any commercial activity on the Property is prohibited, except for de minimis commercial recreational activity as such term is referenced in Internal Revenue Code Section 2031(c)(8)(B).

C. **Industrial Activities.** Any industrial activity on the Property is prohibited.

D. **Construction.** The placement or construction of any human-made modifications, including structures, buildings, fences, roads, and parking lots is prohibited except as provided for under **Paragraph 5**.

E. **Cutting Vegetation.** Any alteration of trees or vegetation, including pruning or trimming, is prohibited, except for the cutting or removal of trees or vegetation that are (i) a threat to human life or property, or (ii) generally accepted as diseased or invasive species by conservation professionals and as provided for under **Paragraph 5**.

F. **Alteration of Land.** The alteration of the surface of the land, including the excavation or removal of soil, sand, gravel, rock, peat, or sod is prohibited.

G. **Mining and Oil and Gas Extraction.** The Owner retains the right to extract oil, gas, hydrocarbons, or petroleum from the Property for commercial purposes as described in **Paragraph 5** provided that no exploration for, or extraction of, minerals shall be conducted from the surface of the Property. The Owner may enter into a non-developmental lease if said lease is part of a pool for oil, gas,

hydrocarbons or petroleum which solely permits the extraction of oil, gas, hydrocarbons, or petroleum. Extraction shall not involve any surface alteration of the Property or construction or placement of any structures, including pipelines, on, over, across, or under the Property.

H. **Dumping.** Processing, storage, dumping, or disposal of liquid, solid, natural or man-made waste, refuse, or debris on the Property is prohibited.

I. **Water Courses, Ground Water.** Natural water courses, lakes, wetlands, or other bodies of water may not be altered and water from ground or surface sources may not be diverted except as provided for under **Paragraph 5**.

J. **Off-Road Recreational Vehicles.** Motorized off-road vehicles such as, but not limited to, snowmobiles, dune buggies, all-terrain vehicles, and motorcycles may not be operated off of designated roads on the Property except as provided for under **Paragraph 5**.

K. **Livestock.** Raising or housing of livestock, poultry or horses, commercial kenneling of animals and commercial aquaculture is prohibited on the Property except as provided for under **Paragraph 5**.

L. **Signs and Billboards.** Billboards are prohibited. Permanent signs are prohibited, except the following signs may be displayed for the following purposes and any other purposes that are consistent with the Permitted Uses under **Paragraph 5**:

- To disclose the name and address of the Property or the owner's name.
- To disclose that the area is protected by a conservation easement.
- To state that trespassers or any unauthorized entry or use is prohibited.
- To advertise the Property for sale or lease.
- To identify and interpret trails and natural features.
- To warn of the presence of dogs or other animals.
- To warn or deal with matters of property boundaries, health, safety, and welfare.
- To include signage required by law or other rules or regulations.

5. **PERMITTED USES.** The Owner retains all ownership rights that are not expressly restricted by this Conservation Easement. In particular, the following rights are reserved:

A. **Right to Convey.** The Owner retains the right to sell, mortgage, bequeath, or donate the Property. Any conveyance will remain subject to the terms of the Conservation Easement and the subsequent Owner will be bound by all obligations in this agreement.

B. **Right to Add, Maintain, Renovate, and Replace Designated Structures and Uses in the Building Envelope.** The Owner retains the right to add, maintain, renovate, and replace the structures, in the **Building Envelope (BE)** described below and as noted on the **Baseline Documentation Map**.

1) The Owner retains the right to add, maintain, renovate, and replace one single-family residential structure and one or more ancillary outbuildings and storage structures, including but not limited to camp structures, garages, barns, storage buildings, or greenhouses.

Any expansion or construction of new structures, or renovation or expansion or replacement of existing structures shall not result in an aggregate impervious land surface area of more than 5,000 square feet land surface area. At the time of the conveyance of the Conservation Easement, the land surface area of all the existing structures on the Property in the **BE** is approximately zero (0) square feet. The impervious land surface area of all future expansions and additional construction shall not exceed 5,000 square feet land surface area. Thus, the aggregate impervious land surface area of all structures, both existing and future, shall never exceed 5,000 square feet land surface area within the **BE**.

The **Building Envelope** is more specifically described as the following:

Commencing at the East Quarter Post of Section 12, Township 3 South, Range 17 West, thence South 0 degrees 0 minutes 0 seconds East 360 feet to the place of beginning; thence South 0 degrees 0 minutes 0 seconds East 317.5 feet, thence South 90 degrees 0 minutes 0 seconds West 305.7 feet, thence North 0 degrees 0 minutes 0 seconds West 317.5 feet, thence North 90 degrees 0 minutes 0 seconds East 305.7 feet to the place of beginning.

The Building Envelope encompasses approximately 2.2 acres.

The Owner retains the right to access the **BE** via one (1) driveway. The driveway will provide access to the **BE** via the public roadway known as County Line Road and may be improved and widened. The driveway and corresponding right-of-way may not exceed 25 feet in width. The Driveway and parking area are not included in the impervious square feet of land surface area limit mentioned above and must be less than 25 feet in width with only a minimal amount of paved area for parking.

To define the corners of the **BE** the Owner permits the Conservancy to install small permanent concrete or metal rod markers. The Owner shall not cover remove or otherwise damage, disturb, or destroy these markers.

Also, the Owner retains the right to provide for utilities to serve the outbuildings within the **BE**. These utilities include, but are not limited to, electricity, water, onsite wells, and septic and sewer services. These utilities can be located either above ground, or below ground and whenever possible will be located within the right-of-way of the driveway, provided the activity does not substantially alter the landscape or adversely impact the Conservation Values of the Property.

Prior to adding any new structure and prior to renovating or replacing any

structure or making a significant change to the driveway, the Owner will provide a written plan to the Conservancy for the Conservancy's review and written approval under the provisions set forth in the Conservation Easement, specifically in **Paragraph 8**. The purpose of the Conservancy's review of the written plan is to make sure the proposed activity is consistent with the terms of this Conservation Easement. So long as the written plan is consistent with the terms of this Conservation Easement, the Conservancy shall approve the written plan.

C. **Right to Add and Maintain Trails and Elevated Walking Platforms.** The Owner retains the right to maintain existing foot trails and existing unpaved two-tracks throughout the Property provided that the maintenance activity does not substantially alter the landscape or adversely impact the Conservation Values of the Property.

The Owner also retains the right to add additional trails and elevated walking platforms. Prior to adding any new trail or walking platform, the Owner will notify the Conservancy in writing for the Conservancy's review and written approval under the provisions of **Paragraph 8**. The addition of any new trails or elevated walking platforms may not substantially alter the landscape of the Property nor shall it adversely impact the Conservation Values of the Property. Any additional trails or elevated walking platforms shall be designed in a manner that protects the Conservation Values to the greatest extent reasonably possible.

D. **Right to Construct and Maintain Perimeter Barriers.** The Owner retains the right to construct and maintain fencing or other deterrent type of structures to prevent access by off-road recreation vehicles or other unauthorized access provided the construction of such fencing or structures do not adversely impact the Conservation Values of the Property.

E. **Right to Conduct Ecological Restoration.** The Owner retains the right to conduct ecological restoration on the Property if (a) it is planned and undertaken meeting the following goals and (b) is conducted (i) in accordance with applicable government regulations, (ii) in accordance with a **Management Plan** or an **Ecological Restoration Plan** prepared by a qualified natural resource professional approved in advance by the Conservancy. (see page 5 below)

Ecological restoration is the process of assisting the recovery and management of ecological integrity with sensitivity to regional and historical context of the landscape. Ecological Restoration includes, but is not limited to, planting native species, removing non-native or invasive species, and implementation of a natural disturbance regime (e.g., fire) appropriate for the Property.

1) *Goals.* The goals include one or more of the following:
   a.to maintain, improve or enhance the overall ecological integrity of the Property (wildlife habitat and species diversity);
   b.to maintain, improve or enhance the scenic character of the Property;
   c.to restore the biodiversity, function, and ability of the property to reasonably accommodate normal disturbances;

d.to conserve native plant and animal species;
e.to protect water quality, wetland, and riparian zones; and
f.to minimize soil disturbance and erosion.

The **Ecological Restoration Plan** shall be provided to the Conservancy for the Conservancy's review and written approval under the provisions of **Paragraph 8**. The Conservancy shall review and either approve or notify the Owner of any deficiencies in the Plan that relate to protecting the Conservation Values of the Property. The Conservancy's written approval may be withheld only upon a reasonable determination by the Conservancy that the proposed action(s) would be inconsistent with the purposes of this Conservation Easement or detrimental to the Conservation Values of the Property.

F. **Right to Remove Trees in Managed Woodland Areas.**

1) Retained Rights. The Owner retains the right to conduct the following forestry activities on the Property in areas designated as **Managed Woodland (MWA)** on the **Baseline Documentation Map** so long as there is no impact to **Designated Wetlands** as identified on the **Baseline Documentation Map**.

a. Cutting or removing trees or other vegetation is permitted to remove dangerous trees, reduce a natural threat of infestation posed by diseased vegetation, or control invasive and/or non-native plant species.

b. Removal of dead and downed trees for firewood for the Owners personal use is permitted provided that such harvest does not exceed ten (10) full cords of wood in any one (1) calendar year.

c. Forest management for the growth and harvest of trees is permitted if (i) it is planned and undertaken meeting the conditions specified in **Paragraph 5F2** below, (ii) it is conducted in accordance with a Forest Management Plan as described in **Paragraph 5F3** below, and (iii) it is conducted in a manner not detrimental to the purposes of this Conservation Easement or detrimental to the Conservation Values of the Property described in **Paragraph 2**.

2) *Conditions*. Any forest management activity on the Property must meet the following conditions:
   a. Minimize soil disturbance and erosion;
   b. Protect water quality, wetland, and riparian zones;
   c. Maintain or improve the overall quality of the forest (habitat, species diversity, and forest productivity);
   d. Conserve the scenic quality of the Property; and
   e. Conserve native plant and animal species.

3) *Forest Management Plan.* The Forest Management Plan must be prepared by a Professional Forester or other qualified natural resources specialist, said Forester or Specialist must be approved in advance and in writing by the Conservancy. The Forest Management Plan need only be prepared prior to selling and harvesting of trees and must be prepared prior to selling or harvesting of trees. The Plan must be updated at least every ten (10) years and shall be provided to the Conservancy for review. The Conservancy shall have thirty (30) days from receipt of the Forest Management Plan to review and either approve or notify the Owner of any deficiencies in the Plan that relate to the requirements of this paragraph **5F3**, including, but not limited to, protecting the Conservation Values of the Property described in **Paragraph 2** of this Conservation Easement. Such approval shall not be unreasonably withheld.

a. *Objectives of the Plan.* The Forest Management Plan must be designed to:

i. Plan for and meet the conditions listed in paragraph **5F2** above.

ii. Preserve or enhance the Property's Conservation Values outlined in **Paragraph 2**.

iii. Comply with all applicable local, state, federal and other governmental laws and regulations.

iv. Comply with the standards set forth in the then current Best Management Practices, as outlined in "Water Quality Management Practices on Forest Land", (1994) Michigan Department of Natural Resources, and in accordance with the recommendations in "Riparian Forest Buffers", (Welsch, 1991) Forest Resources Management, USDA Forest Service, Radnor, PA, NAPR0791or similar successor publications approved by the Conservancy.

v. Develop and maintain over the entire forest a welldistributed stand of unevenaged and multiple species of trees conducive to supporting a natural forest ecosystem.

vi. Prevent highgrading as a harvesting method.

b. *Notice of Harvest.* The Owner shall provide the Conservancy with a written Notice of Harvest at least thirty (30) days prior to the first of the following events: bidding, selling, or harvesting of any trees. The proposed harvest is subject to the Conservancy's approval in order to implement the changes, if any, recommended by the Conservancy to the harvest plan or procedures. Notice shall include the location of the harvest, contemplated dates, a cutting plan, a plan for ingress and egress, and a summary of activities and practices intended to achieve compliance with the requirements of this Paragraph **5F3**. Upon completion of harvest and after all restoration has been completed, Notice of Completion shall be

provided to the Conservancy.

Timber harvesting shall be conducted under a written contract with competent operators. The contract shall specify relevant requirements for compliance with this Paragraph and this Conservation Easement. Such contract shall be provided to the Conservancy prior to harvest.

c. *Definitions.*

Clearcut - A forested area will be deemed "clearcut" unless there remains after commercial harvesting or permitted selection cutting, a sufficiently dense and well distributed stand of developing and mature indigenous trees so that the character of the landscape remains substantially forested.

Forest Management - Proper care and control of wooded land to maintain health, vigor, product flow, and other values (soil condition, water quality, wildlife preservation, and beauty) in order to accomplish specific landowner objectives.

High Grading - the harvesting of only large diameter, high quality trees of merchantable value while leaving trees that are not merchantable because of small size, poor quality, or undesirable species.

Individual Selection or Group Selection Harvesting A harvest in which individual trees or small groups of trees in areas no greater than ¾ acre or with area diameters no greater than two times the height of the dominant trees in the canopy, whichever is smaller, are harvested at periodic intervals (usually 815 years) based on their physical condition or degree of maturity for the purposes of encouraging regular growth and maintaining an intact forest canopy over the landscape. The use of individual selection cutting or group selection should be used for regeneration of existing shade tolerant and shade intolerant trees species respectively, and to enhance the uneven-aged management system.

G. **Right to Maintain Open Space Activities**. The Owner retains the right to have horses or barnyard animals for personal, non-commercial use. Grazing is permitted in areas designated as **OS, BE** and **AG** on the **Baseline Documentation Map** outside of **Designated Wetlands**. The right to use the property for animals under this paragraph (including the number of animals on the Property) shall be done in a way that does not adversely impact the Conservation Values of the Property and also shall be consistent with the following:

1) For the purposes of shelter and general care, the **BE** should be used for the stabling of horses and barnyard animals. Pasturing of animals must occur

within the areas designated as **OS, BE,** or **AG** on the **Baseline Documentation Map**.

2) In order to protect the Conservation Values of the Property the Owner must erect and maintain fencing and enclosures adequate to prevent horses and barnyard animals from entering **Designated Wetlands** as identified on the **Baseline Documentation Map** unless for permitted equestrian riding purposes to cross from one open space to another.

3) In order to preserve the scenic beauty of the Property and protect the Conservation Values of the Property, "Open Space Activities" does not include the use of the Property as a commercial feedlot, or a confined or concentrated animal feeding operation ("CAFO").

H. **Right to Maintain Agricultural and Open Space Activities/Uses.** The Owner retains the right to maintain agricultural operations on the Property. Agricultural and Open Space use is permitted in areas designated as **AG** on the **Baseline Documentation Map** and is defined as the planting and harvesting of crops, nursery stock, and trees for silviculture. Agricultural management operations shall employ generally accepted agricultural management practices as defined and recommended in the Michigan Right-to-Farm Act, Public Act 93 of 1981, as amended, MCL 286.472, 286.473, and 286.474, or successor provisions then applicable, that address soil and water conservation, pest management, nutrient management and other management practices.

1. "**Agricultural Use**" means use of substantially undeveloped land for the production of horticultural, and agricultural crops useful to humans, including but not limited to fruits, nuts, vegetables, mushrooms, Christmas trees, timber trees, and grains and feed crops, the pasturing of livestock, horses and barnyard animals, and the following related uses and activities:
   a. Excavation for the purposes consistent with agriculture use such as irrigation pipes and irrigation wells. Disrupted surfaces shall be resorted in a manner consistent with agricultural uses, including replacement of a minimum of four (4) inches of topsoil and seeding within a reasonable period of time after disruption.

2. **"Open Spaces Use"** as used herein means:
   a. Agricultural Uses as defined above;
   b. Non-agricultural uses that conserve natural, scenic or designated historic resources;
   c. Windbreaks and other vegetation; and
   d. Habitat for native wildlife species.

This includes the right to maintain the **OS** area identified on the **Baseline Documentation Map** by periodically mowing or burning to keep woody species from encroaching.

3. In order to preserve the scenic beauty of the Property and protect the Conservation Values of the Property, Agricultural and Open Space Uses does not include the use of the Property as a commercial feedlot, or a confined or concentrated animal feeding operation ("CAFO").

4. To protect conservation values, the Owner shall maintain a protective vegetative buffer strip on the **AG** side of all fencing adjacent to **Designated Wetlands** as both are identified on the **Baseline Documentation Map,** to effectively filter nutrients.

I. **Right to Hunt and Fish.** The Owner retains the right to allow hunting, fishing and trapping on the Property as regulated by the Michigan Department of Natural Resources or applicable successor agency and as a management tool in circumstances necessary to control wildlife and feral animals.

J. **Right to Construct and Maintain Hunting Blinds, Viewing Platforms and Tree Stands.** The Owner retains the right to construct and place blinds on the Property for the purpose of hunting and viewing wildlife. Blinds and viewing platforms shall not have a foundation constructed with concrete or other permanent materials. The Owner may affix permanent tree stands that are constructed from wood or fasten tree stands that are portable and non-permanent, made from any materials that common or standard for these devices.

K. **Right to Noncommercial Fruit, Berry and Mushroom Picking.** The Owner and clients of the camp and retreat center retain the right to noncommercial fruit, berry and mushroom picking provided such activities do not adversely impact the Conservation Values on the Property.

L. **Right to Equestrian Riding.** The Owner retains the right to equestrian riding in the **Open Space (OS)** and on established two tracks and foot trails in the **Managed Woodland Area** outside of **Designated Wetlands** as referred to on the **Baseline Documentation Map**, provided such activities do not adversely impact the Conservation Values of the Property.

M. **Right to Exploit Subsurface Mineral Resources.** The Owner retains the right to extract oil, gas, hydrocarbons, or petroleum for commercial purposes provided that no exploration for, or extraction of, minerals shall be conducted from the surface of the Property. The Owner may enter into a non-developmental lease if said lease is part of a pool for oil, gas, hydrocarbons or petroleum which solely permits the extraction of oil, gas, hydrocarbons, or petroleum. Any construction or placement of any structures, including pipelines, on, over or across the Property is prohibited. Under no circumstances are surface mining methods allowed.

Prior to engaging in a non-development lease, the Owner will provide a draft of

said lease to the Conservancy for the Conservancy's review and written approval under the provisions set forth in the Conservation Easement, specifically in **Paragraph 8**. The purpose of the Conservancy's review of the written plan is to make sure the proposed activity is consistent with the terms of this Conservation Easement. Approval from the Conservancy shall not be unreasonably withheld so long as the written plan is consistent with the terms of this Conservation Easement and does not adversely impact the Conservation Values.

Extraction of non-hydrocarbon or petroleum minerals, such as, sand, gravel, rock or peat, is prohibited.

N. **Right to Establish, Maintain, Renovate, and Replace Wind Generation Infrastructure.** The Owner also retains the right to establish, maintain, renovate, and replace one (1) wind turbine for the purpose of energy generation. The wind turbine shall not exceed eighty (80) feet in height and shall be located within the **BE**, **AG** or **OS** area on the **Baseline Documentation Map**. Prior to adding or replacing any wind generation infrastructure, Owner will provide a written plan to the Conservancy for the Conservancy's review and written approval under the provisions set forth in the Conservation Easement, specifically in **Paragraph 8**. The purpose of the Conservancy's review of the written plan is to make sure the proposed activity is consistent with the terms of this Conservation Easement. So long as the written plan is consistent with the terms of this Conservation Easement, the Conservancy shall approve the written plan.

Additional wind turbines exceeding eighty (80) feet in height are permitted subject to prior approval of the Conservancy, as described in **Paragraph 8**. The Conservancy may approve or deny the request based upon the proposed impact to conservation values.

O. **Right to Establish and Maintain Family Graveyard.** The Owner retains the right to establish a small family graveyard plot not to exceed 100 square feet within the **OS** area designated as **Geronimo Hill** on the **Baseline Documentation Map** so long as the use and location does not adversely impact conservation values.

Prior to establishing the graveyard, Owner will provide a written plan to the Conservancy for the Conservancy's review and written approval under the provisions set forth in the Conservation Easement, specifically in **Paragraph 8**. The purpose of the Conservancy's review of the written plan is to make sure the proposed activity is consistent with the terms of this Conservation Easement. So long as the written plan is consistent with the terms of this Conservation Easement, the Conservancy shall approve the written plan.

P. **Recreational Activity.** The Owner may continue to allow clients of the camp and retreat center to use the property for recreational uses, including hiking, horseback riding as permitted in **Paragraph 5**, cross-country skiing, bicycling, playing field sports in the **AG** and **BE** areas as identified on the **Baseline**

Documentation Map, and camping in temporary structures placed in the **AG** Area, so long as the activities do not violate the restriction on commercial recreation activity in **Paragraph 4(B)** and do not impair the Conservation Values.

6. **RIGHTS OF THE CONSERVANCY.** The Owner conveys the following rights upon the Conservancy to perpetually maintain the Conservation Values of the Property:

A. **Right to Enter**. The Conservancy has the right to enter the Property at reasonable times to monitor the Property and to enforce compliance with, or otherwise exercise its rights under, this Conservation Easement. Notwithstanding the foregoing, the Conservancy may not unreasonably interfere with the Owner's use and quiet enjoyment of the Property or permit others to enter the Property. The general public is not granted access to the Property under this Conservation Easement.

B. **Right to Preserve.** The Conservancy has the right to prevent any activity on or use of the Property that is inconsistent with the Purposes or detrimental to the Conservation Values of the Property.

C. **Right to Require Restoration.** The Conservancy has the right to require the Owner to restore the areas or features of the Property which are damaged by any activity inconsistent with this Conservation Easement.

D. **Signs.** The Conservancy has the right to place signs on the Property which identify the land as protected by this Conservation Easement. The number and location of any signs are subject to the Owner's approval.

7. **CONSERVANCY'S REMEDIES.**

A. **Delay in Enforcement.** A delay in enforcement shall not be construed as a waiver of, or otherwise a bar to, the Conservancy's right to enforce the terms of this Conservation Easement.

B. **Third Party Violations.** Notwithstanding the Owner's obligations under this Conservation Easement and the Conservancy's right to require restoration of the Property, the Conservancy shall have the following rights for acts or occurrences at the Property beyond the direct or indirect control of the Owner:

1) The Conservancy may not bring an action against the Owner for modifications to the Property or damage to the Property or its Conservation Values resulting from natural causes beyond the Owner's control, including natural disasters, unintentional fires, floods, storms, natural earth movement or other acts of God that impair the Conservation Values.

2) The Owner shall be responsible for modifications or damage to the

Property that impair or damage the Conservation Values of the Property and result from the acts of third parties whose use of, or presence on, the Property is authorized by the Owner. Owner shall perform such restoration pursuant to and in accordance with a restoration plan prepared by a competent professional selected by the Owner and approved by the Conservancy. The contents of the restoration plan shall be subject to the prior written approval of the Conservancy.

3) In the event of an unauthorized third-party violation of the Conservation Values on the Property, the Conservancy shall not seek restoration or exercise remedies available to it if and so long as the Owner diligently pursues all available legal remedies against the violator. In the event actions taken by unauthorized third parties impair the Conservation Values protected by this Conservation Easement, the Conservancy reserves the right, either jointly or severally, to pursue all appropriate civil and criminal penalties to compel restoration and Owner assigns any claim or right to recover against such third parties to Conservancy.

C. **Notice and Demand.** If the Conservancy determines that the Owner is in violation of this Conservation Easement, or that a violation is threatened, the Conservancy shall provide written notice to the Owner. The written notice will identify the violation and request corrective action to cure the violation and, where the Property has been injured, to restore the Property. If at any time the Conservancy determines, in its sole and absolute discretion, that the violation constitutes immediate and irreparable harm, no written notice is required and the Conservancy may then immediately pursue its remedies to prevent or limit harm to the Conservation Values of the Property. If the Conservancy determines that this Conservation Easement is, or is expected to be, violated, and the Conservancy's good-faith and reasonable efforts to notify the Owner are unsuccessful, the Conservancy may pursue its lawful remedies to mitigate or prevent harm to the Conservation Values without prior notice and without awaiting the Owner's opportunity to cure. The Owner agrees to reimburse all reasonable costs and attorney fees associated with the investigation, prevention, mediation, and remediation of harm.

D. **Failure to Act.** If, within twenty-eight (28) days after written notice, the Owner does not implement corrective measures requested by the Conservancy or fails to supply a resolution satisfactory to the Conservancy, the Conservancy may bring an action in law and/or in equity to enforce the terms of the Conservation Easement. In the case of immediate or irreparable harm, as determined in the sole discretion of the Conservancy, or if an Owner is unable to be notified, the Conservancy may invoke these same remedies without notification and/or awaiting the expiration of the 28-day period. The Conservancy is entitled to enjoin the violation through temporary or permanent injunctive relief without bond or other security, and to seek specific performance, declaratory relief, restitution, reimbursement of expenses, and/or an order compelling the Owner to

restore the Property. If the court determines that the Owner has failed to comply with this Conservation Easement, the Owner shall also reimburse the Conservancy for all reasonable litigation costs and reasonable attorney's fees, and all costs of corrective action or Property restoration incurred by the Conservancy.

E. **Actual or Threatened Non-Compliance.** The Conservancy's rights under this **Section 7** apply in the event of either actual or threatened violations of the terms of this Easement. The Owner agrees that the Conservancy's claim for money damages for any violation of the terms of this Easement is inadequate. The Conservancy shall also be entitled to affirmative and prohibitive injunctive relief and specific performance, both prohibitive and mandatory. The Conservancy's claim for injunctive relief or specific performance for a violation of this Conservation Easement shall not require proof of actual damages to the Conservation Values.

F. **Cumulative Remedies.** The preceding remedies of the Conservancy are cumulative not exclusive and shall be in addition to all other remedies. Any, or all, of the remedies may be invoked by the Conservancy if there is an actual or threatened violation of this Conservation Easement.

8. **NOTIFICATION PROVISION.** The Conservancy is entitled to sixty (60) days written notice whenever its approval is required under this Conservation Easement. The Conservancy may obtain an additional thirty (30) day period to provide its approval by notifying the Owner of its intent to extend the time within the original sixty (60) day period. If the Conservancy fails to respond within sixty (60) days after it receives the written request, then its approval shall be deemed given. This implied approval shall not extend to any activity contrary to this Conservation Easement or impairing a Conservation Value. The Conservancy's approval shall continue for three years. If the approved activity is not commenced within three (3) months and diligently pursued or not completed within three (3) years after the approval date, then the Owner must re-submit the written application to the Conservancy.

If approval or consent to any proposed action or plan of the Owner (Owner's Proposal) is required under this Easement the Conservancy's approval or consent may be in the form of a Letter of Non-Objection from the Conservancy. Provided further, any consent, approval, or Letter of Non-objection shall not: a) create any liability on behalf of the Conservancy to any person regarding the Owner's Proposal, b) create any right to deviate from the terms of this Easement or act otherwise inconsistently with the Conservation Values protected by this Easement, c) be any endorsement, representation or warranty by the Conservancy regarding the soundness, safety, design, feasibility, functionality, or other aspect of the Owner's Proposal, d) create any precedent or other right to use of the Property in a manner inconsistent with the terms of this Easement, or e) create any bar to the Conservancy's right to enforce the terms of this Easement.

9. **SUBORDINATION.** Owner represents and warrants that as of the date of execution and recording of this Conservation Easement, the Property is not subject to any mortgage,

lien, claim or interest which has not been subordinated to this Conservation Easement. Any mortgage, lien, claim or interest in the Property arising after the date of recording this Conservation Easement shall be subject and subordinate to the terms of this Conservation Easement.

10. **CONSERVATION EASEMENT REQUIREMENTS UNDER MICHIGAN LAW AND UNITED STATES TREASURY REGULATIONS.**

A. This Conservation Easement is an interest in real property created pursuant to the Conservation and Historic Preservation Easement, Sub part 11 of Part 21 of the Michigan Natural Resources and Environmental Protection Act (NREPA) - MCL §§ 324.2140 *et seq*.

B. This Conservation Easement is established for conservation purposes pursuant to the Internal Revenue Code, as amended at Title 26, U.S.C.A., Section 170(h)(1)-(6) and Sections 2031(c), 2055, and 2522, and under Treasury Regulations at Title 26 C.F.R. § 1.170A-14 *et seq*, as amended.

C. The Conservancy is qualified to hold conservation easements pursuant to these statutes. It is a publicly supported, non-profit 501(c)(3) organization and all as defined by the applicable provisions of the Internal Revenue Code.

11. **OWNERSHIP COSTS AND LIABILITIES.** In accepting this Conservation Easement, the Conservancy shall have no liability or other obligation for costs, liabilities, taxes, or insurance of any kind related to the Property. The Conservancy's rights do not include the right, in absence of a judicial decree, to enter the Property for the purpose of becoming an operator of the Property within the meaning of the Comprehensive Environmental Response, Compensation, and Liability Act. The Conservancy, its members, trustees or directors, officers, employees, and managers have no liability arising from injury or death to any person or physical damage to any property on the Property. The Owner agrees to defend, indemnify and hold harmless the Conservancy against such claims arising during the term of the Owner's ownership of the Property. Subsequent owners of the Property will similarly defend and indemnify the Conservancy for any claims arising during the tenure of their ownership. Notwithstanding the foregoing, the Conservancy shall indemnify and hold harmless the Owner from any claims for injury or death of any person or property incurred in connection with or arising out of the Conservancy's use of the Property.

12. **HAZARDOUS MATERIALS.** Owner represents, warrants and agrees Owner has no actual or constructive knowledge of, and shall not permit the presence, release or storage of, any hazardous substances or hazardous wastes upon the Property. [Hazardous substances and materials shall include reference to any chemicals, materials, petroleum products, agricultural wastes, in such form quantity or quality that is subject to regulation as hazardous or toxic under applicable, federal, state or local laws, regulations or otherwise and any material or substance that is know to, or may have adverse, harmful, or detrimental impacts on human or animal health or the environment. Owner shall defend,

indemnify, and hold harmless the Conservancy from and against any claims arising out of any violation of this provision.

13. **REGULATORY AUTHORITY**. The Owner is solely responsible for obtaining any applicable permit or authorization or otherwise ensuring that any proposed use, building, construction, design, location, or other specification related to the Property meets applicable local, state, and federal zoning, requirement, regulation, rule, policy, or standard. In accepting this Conservation Easement, or in reviewing and/or approving any use, building, construction, design, location, or any other specification related to the Property or the use or development of the Property, the Conservancy makes no warranty that the proposed use, building, construction, design, location, or other specification or activity meets any local, state, or federal zoning, requirement, regulation, rule, policy, or standard and assumes no responsibility and be subject to no liability for the same.

14. **CESSATION OF EXISTENCE.** If the Conservancy shall cease to exist or if it fails to be a "qualified organization" for purposes of Internal Revenue Code Section 170(h)(3), or if the Conservancy is no longer authorized to acquire and hold conservation easements, then this Conservation Easement shall become vested in another entity which shall be a "qualified organization" for purposes of Internal Revenue Code Section 170(h)(3). The Conservancy's rights and responsibilities shall be assigned to any entity having similar conservation purposes to which such right may be awarded under the *cy pres* doctrine.

15. **ASSIGNMENT.** Without notice to or consent of the Owner the Conservancy may assign its rights and obligations under this Conservation Easement only to an organization that, at the time of the assignment, is a "qualified conservation organization" under Section 170(h) of the Code of 1986, as amended. The Conservancy shall require as a condition of assignment that the assignee assume all obligations under this Conservation Easement.

16. **TERMINATION.** This Conservation Easement may be extinguished only by an A. unexpected change in condition which causes it to be impossible to fulfill the Purposes, or B. by exercise of eminent domain.

    A. **Unexpected Change in Conditions.** If subsequent circumstances render the Purposes impossible to fulfill, then this Conservation Easement may be partially or entirely terminated only by judicial proceedings. The Conservancy will then be entitled to compensation in accordance with the provisions of Internal Revenue Code Treasury Regulations Section 1.170A-14(g)(6)(ii). Notwithstanding the foregoing, the Owner and Conservancy intend that this Conservation Easement not be subject to the legal doctrine of "changed conditions" that is applied to traditional servitudes. In making this grant, Donors have considered the possibility that uses prohibited by the terms of this easement may become more economically valuable than permitted uses, and that neighboring properties may in the future be put entirely to such prohibited uses. In addition, the unprofitability of conducting or implementing any or all of the uses permitted under the terms of the Conservation Easement shall not impair the validity of this Conservation

Easement or be considered grounds for its termination or extinguishment. It is the intent of Owner that any such economic changes shall not be deemed to be changed conditions or a change of circumstances justifying the judicial termination, extinguishment or amendment of this Conservation Easement.

B. **Eminent Domain.** If the Property is taken, in whole or in part, by power of eminent domain, then the Conservancy will be entitled to compensation by the method as is set forth in IRC Treasury Regulations Section 1.170A-14(g)(6)(ii) in effect on the date of this Conservation Easement.

17. **LIBERAL CONSTRUCTION.** This Conservation Easement shall be liberally construed in favor of maintaining the Conservation Values of the Property and in accordance with the Conservation and Historic Preservation Easement, Sub part 11 of Part 21 of the Michigan Natural Resources and Environmental Protection Act MCL 324.2140 *et seq.*

18. **AMENDMENT.** Owner and Conservancy may jointly amend this Conservation Easement; provided that (i) such amendment shall be approved by the Conservancy in its sole and absolute discretion, (ii) no amendment shall be allowed that shall impact the qualification of this Conservation Easement or the status of the Conservancy under any applicable laws, including MCL 324.2140 – 324.2144, or Section 170(h) of the Code, (iii) any amendment shall be consistent with the Purposes, (iv) shall not impact the perpetual duration of this Conservation Easement, (v) shall be allowed to add real property to the legal description and, therefore, preserve additional land, and (vi) shall be allowed to correct clerical errors in the recorded document, such as an inaccuracy in a legal description. Any such amendment shall be in writing and recorded in the official records of Kalamazoo County, Michigan, and any other jurisdiction in which such recording is required.

19. **NOTICES.** For purposes of this Conservation Easement, required written notices shall be sufficient if provided by either party to the other party by personal delivery or by First Class mail to the most recent address of record. If a new party succeeds either party or either party changes its address, the new address information shall be provided in writing to the other party as soon as practicable by personal delivery or First Class mail. Service will be complete upon personal delivery or upon depositing the properly addressed notice with the U.S. Postal Service with sufficient postage prepaid.

20. **SEVERABILITY.** If any portion of this Conservation Easement is determined to be invalid, the remaining provisions will remain in force.

21. **SUCCESSORS.** This Conservation Easement is binding upon, and inures to the benefit of, the Owner's and the Conservancy's successors in interest. All subsequent owners of the Property are bound to all provisions of this Conservation Easement to the same extent as the Owner/Donor.

22. **TERMINATION OF RIGHTS AND OBLIGATIONS.** A party's future rights and

obligations under this Conservation Easement terminate upon transfer of that party's interest in the Property. Liability for acts or omissions occurring or accruing prior to transfer will survive the transfer.

23. **MICHIGAN LAW.** This Conservation Easement will be construed in accordance with Michigan Law.

24. **ENTIRE AGREEMENT.** This Conservation Easement sets forth the entire agreement of the parties. It is intended to supersede all prior discussions or understandings.

25. **CONSTRUCTION**. All Parties have reviewed this Agreement. Neither of the parties shall be deemed draftsman of this Agreement or any part thereof, each having had the benefit of counsel of the party's own choosing in negotiating its terms. Should any provision in the Agreement require judicial interpretation, the court interpreting or construing such provision shall not apply a presumption that such provision shall be more strictly construed against the party who drafted such provision.

26. **EXHIBITS.** This Conservation Easement includes, and incorporates the following Exhibits:

TITLE WORK

Policy or Policies issued pursuant to this commitment are underwritten by:

First American Title Insurance Company

SCHEDULE A

Commitment No.: 545656
2215

REVISION B Date Printed: November 30, 2011

1. Effective Date: November 21, 2011 @ 8:00 AM

2. Policy or Policies to be issued: — Policy Amount
(a) ALTA Owners Policy (6-17-06) — $67,050.00

Proposed Insured:
Southwest Michigan Land Conservancy, as to easement rights only

Policy or Policies to be issued: — Policy Amount
(b) ALTA Loan Policy (6-17-06)

Proposed Insured:

3. The Fee Simple interest in the land described in this Commitment is owned, at the Commitment Date, by:
Ronora Lodge & Retreat Center, LLC, a Michigan limited liability company, as to Parcels 1, 2, 4 and 5

4. The land referred to in this Commitment, situated in the County of Berrien, Township of Watervliet, State of Michigan, is described as follows:

(SEE EXHIBIT A LEGAL DESCRIPTION)

Dwight Boyer Road, North M 140, North County Line Road Watervliet MI 49098

Issued By: First American Title Insurance Company

Schedule B – Section I
REQUIREMENTS

Commitment No.: 545656

General Requirements

The following requirements must be met:

(a) Payment of the full consideration to, or for the account of, the grantors or mortgagors should be made.
(b) Payment of all taxes, charges, assessments, levied and assessed against subject premises, which are due and payable should be made.
(c) Pay us the premiums, fees and charges for the policy.
(d) You must tell us in writing the name of anyone not referred to in this Commitment who will receive an interest in the land or who will make a loan on the land. We may make additional requirements or exceptions.
(e) Submit completed Owner's Estoppel/Affidavit/ALTA Statement on the form provided by this company and signed by or on behalf of all owners.

Specific Requirements

Documents satisfactory to us creating the interest in the land and/or mortgage to be insured must be signed, delivered and recorded:

1. OMIT.
2. OMIT.
3. INSTRUMENT TERMINATING THE LIFE ESTATE INTEREST OF CAROLINE M. WANG, ALSO KNOWN AS LONNY MYERS, AS TO PARCEL 5.
4. SUBMIT A COPY OF THE OPERATING AGREEMENT OF RONORA LODGE & RETREAT CENTER, LLC, A MICHIGAN LIMITED LIABILITY COMPANY. FURTHER REQUIREMENTS MAY BE MADE UPON REVIEW OF THE OPERATING AGREEMENT.
5. PROVIDE SATISFACTORY EVIDENCE OF THE AUTHORITY OF THE PERSON OR PERSONS AUTHORIZED TO EXECUTE THE EASEMENT ON BEHALF OF RONORA LODGE & RETREAT CENTER, LLC, A MICHIGAN LIMITED LIABILITY COMPANY.
6. EASEMENT FROM RONORA LODGE & RETREAT CENTER, LLC, A MICHIGAN LIMITED LIABILITY COMPANY, AS TO PARCELS 1, 2, 4 AND 5 TO SOUTHWEST MICHIGAN LAND CONSERVANCY.
7. NOTE: A LEGAL DESCRIPTION OF THE PROPERTY TO BE INSURED WAS NOT FURNISHED AT TIME OF APPLICATION. PLEASE IMMEDIATELY VERIFY THE DESCRIPTION OF THE PROPERTY TO BE INSURED. ANY ADDITIONS OR DELETIONS SHOULD IMMEDIATELY BE COMMUNICATED TO THE ISSUING OFFICE.

First American Title Insurance Company

Portage, MI 49002

Schedule B – Section II
EXCEPTIONS

Commitment No.: 545656

Schedule B of the policy or policies to be issued will contain exceptions to the following matters unless the same are disposed of to the satisfaction of the Company:

Defects, liens encumbrances adverse claims or other matters, if any, created, first appearing in the public records or attaching subsequent to the effective date hereof but prior to the date the Proposed Insured acquires for value of record the estate or interest or mortgage thereon covered by this Commitment.

Part One: General Exceptions

Any policy we issue will have the following exceptions unless they are taken care of to our satisfaction:

1. Rights or claims of parties in possession not shown by the public records.
2. Encroachments, overlaps, boundary line disputes, or other matters which would be disclosed by an accurate survey and inspection of the premises.
3. Easements, or claims of easements, not shown by the public records.
4. Any lien, or right to a lien, for services, labor or material heretofore or hereafter furnished, imposed by law and not shown on the public records.
5. Taxes or special assessments which are not shown as existing liens by the public records.

Part Two: Specific Exceptions

1. Omit.
2. Omit.
3. Omit.
4. Life Estate Interest of Caroline M. Wang, also known as Lonny Myers, as evidenced by instrument recorded in Liber 2023, page 890, as to Parcel 5.
5. Easement in favor of Indiana & Michigan Electric Company and the Covenants, Conditions and Restrictions contained in instrument recorded in Liber 45 of Miscellaneous Records, page 371, as to Parcels 2 and 5.
6. Easement in favor of Indiana & Michigan Electric Company and the Covenants, Conditions and Restrictions contained in instrument recorded in Liber 97 of Miscellaneous Records, page 238, as to Parcel 1.
7. Easement in favor of Indiana & Michigan Electric Company and the Covenants, Conditions and Restrictions contained in instrument recorded in Liber 101 of Miscellaneous Records, page 603, as to Parcel 4.
8. Right of Way in favor of Michigan Bell Telephone Company and the Covenants, Conditions and Restrictions contained in instrument recorded in Liber 1159, page 671, as to Parcels 2 and 5.
9. Terms and Conditions contained in Reciprocal Easement and Operating Agreement as disclosed by instrument recorded in Liber 1809, page 743.
10. Rights of other riparian owners and to the public trust in and to the waters of the Sherwood Drain crossing subject property, as to Parcels 1 and 4.
11. Rights of the United States, State of Michigan and the public for commerce, navigation, recreation and fishery, in any portion of the land comprising the bed of Sherwood Lake, or land created by fill or artificial accretion, as to Parcels 1 and 5.
12. The nature, extent or lack of riparian rights or the riparian rights of riparian owners and the public in and to the use of the waters of Sherwood Lake, as to Parcels 1 and 5.

13. Any rights, title interest or claim thereof to that portion of the land taken, used or granted for streets, roads or highways.

14. Rights of tenants, if any, under any unrecorded leases.

15. Lien for outstanding water or sewer charges, if any.

16. All Taxes paid to and including 2010
2010 Winter Taxes PAID in the amount of $2,780.91
2011 Summer Taxes PAID in the amount of $2,323.14
Tax Item No. 11-21-0012-0003-04-3, as to Parcels 1 and 2

17. Omit.

18. All Taxes paid to and including 2010
2010 Winter Taxes PAID in the amount of $842.25
2011 Summer Taxes PAID in the amount of $703.64
Tax Item No. 11-21-0012-0014-06-1, as to Parcel 4

19. All Taxes paid to and including 2010
2010 Winter Taxes PAID in the amount of $889.74
2011 Summer Taxes PAID in the amount of $751.65
Tax Item No. 11-21-0013-0013-03-9, as to Parcel 5

NOTE: If subject property is connected to public/community water or sewer, furnish a copy of the current bill to First American Title Insurance Company showing that all charges have been paid to date or the Policy to be issued will include an exception on Schedule B for water and sewer charges which became a lien prior to the date of the Policy.

EXHIBIT A
LEGAL DESCRIPTION

File No.: 545656

The land referred to in this Commitment, situated in the County of Berrien, Township of Watervliet, State of Michigan, is described as follows:

EASEMENT RIGHTS ONLY IN THE FOLLOWING PROPERTIES:

PARCEL 1:
That part of the South Half of Section 12, Town 3 South, Range 17 West and part of the East Half of the Southeast Quarter of Section 11, Town 3 South, Range 17 West, described as follows: Commencing at the South Quarter post of said Section 12; thence North 89 degrees 08 minutes 30 seconds West 1541.7 feet; thence North 09 degrees 24 minutes 30 seconds West 951.8 feet; thence South 88 degrees 35 minutes 30 seconds West 410.3 feet; thence South 65 degrees 29 minutes 30 seconds West 276 feet; thence South 73 degrees 22 minutes 25 seconds West 632.02 feet to the centerline of Watervliet Road; thence North 04 degrees 22 minutes 02 seconds East, on said centerline, 377 feet; thence South 84 degrees 44 minutes 58 seconds East 185 feet; thence South 00 degrees 01 minute 14 seconds West 260.98 feet; thence North 73 degrees 22 minutes 25 seconds East 92.58 feet to a point 741.3 feet North 00 degrees 01 minute 14 seconds East of the Southwest corner of said Section 12; thence North 73 degrees 22 minutes 25 seconds East 320.4 feet; thence North 65 degrees 29 minutes 30 seconds East 276 feet; thence North 88 degrees 35 minutes 30 seconds East 410.3 feet; thence North 01 degree 50 minutes 52 seconds East 233.06 feet; thence North 89 degrees 58 minutes 46 seconds West 234 feet to meander point; thence North 54 degrees 53 minutes 39 seconds East, on meander line, 310.46 feet to meander post, including all lands between said meander line and Sherwood Drain; thence North 00 degrees 07 minutes 29 seconds West 323.8 feet; thence North 89 degrees 03 minutes 12 seconds West 1004.39 feet; thence North 00 degrees 01 minute 14 seconds East 99.87 feet; thence North 89 degrees 03 minutes 12 seconds West 200 feet to the centerline of road; thence North 03 degrees 55 minutes 35 seconds East, on said centerline, 100.32 feet; thence South 89 degrees 03 minutes 12 seconds East 2861.45 feet; thence South 00 degrees 07 minutes 29 seconds East 562.94 feet; thence South 88 degrees 15 minutes 06 seconds East 155.07 feet; thence South 00 degrees 07 minutes 29 seconds East 1339.67 feet; thence North 89 degrees 14 minutes 02 seconds West 155 feet to the place of beginning.
Excepting Therefrom Commencing at the South Quarter post of said Section 12; thence North 89 degrees 08 minutes 30 seconds West, on the South Section line, 1541.70 feet; thence North 09 degrees 24 minutes 30 seconds West 241.92 feet to the place of beginning of this description; thence North 09 degrees 24 minutes 30 seconds West 709.88 feet; thence South 88 degrees 35 minutes 30 seconds West 410.30 feet; thence South 65 degrees 29 minutes 30 seconds West 276.00 feet; thence South 73 degrees 22 minutes 25 seconds West 399.25 feet to the Easterly line of M-140 Highway; thence along said Easterly line 33.13 feet around a curve to the left with a radius of 2947.00 feet and a chord that bears North 21 degrees 46 minutes 06 seconds West 33.13 feet; thence North 73 degrees 22 minutes 25 seconds East 415.16 feet; thence North 65 degrees 29 minutes 30 seconds East 276.00 feet; thence North 88 degrees 35 minutes 30 seconds East 679.23 feet; thence South 09 degrees 24 minutes 30 seconds East 510.00 feet; thence South 45 degrees 00 minutes 00 seconds West 338.18 feet to the place of beginning.
Also Excepting Therefrom Commencing at the South Quarter post of said Section 12; thence North 89 degrees 08 minutes 30 seconds West 1541.7 feet; thence North 09 degrees 24 minutes 30 seconds West 951.8 feet to the place of beginning; thence South 88 degrees 35 minutes 30 seconds West 410.3 feet; thence South 65 degrees 29 minutes 30 seconds West 276 feet; thence South 73 degrees 22 minutes 25 seconds West 632.02 feet to the centerline of Watervliet Road; thence North 04 degrees 22 minutes 02 seconds East, on said centerline, 377 feet; thence South 84 degrees 44 minutes 58 seconds East 185 feet; thence South 00 degrees 01 minute 14 seconds West 260.08 feet; thence North 73 degrees 22 minutes 25 seconds East 92.58 feet to a point 741.3 feet North 00 degrees 01 minute 14 seconds East of the Southwest corner of said Section 12; thence North 73 degrees 22 minutes 25 seconds East 320.4 feet; thence North 65 degrees 29 minutes 30 seconds East 276 feet; thence North 88 degrees 35 minutes 30 seconds East 410.3 feet; thence South 0 degrees 0 minutes 0 seconds West approximately 40 feet to the place of beginning.
Also Excepting Therefrom Commencing at the South Quarter post of said Section 12; thence North 89 degrees 08 minutes 30 seconds West 1541.7 feet; thence North 09 degrees 24 minutes 30 seconds West 951.8 feet; thence South 88 degrees 35 minutes 30 seconds West 410.3 feet; thence South 65 degrees 29 minutes 30 seconds West 276 feet; thence South 73 degrees 22 minutes 25 seconds West 632.02 feet to the centerline of Watervliet Road; thence North 04 degrees 22 minutes 02 seconds East, on said centerline, 377 feet; thence South 84 degrees 44 minutes 58 seconds East 185 feet; thence South 00 degrees 01 minute 14 seconds West 260.98 feet; thence North 73 degrees 22 minutes 25 seconds East 92.58 feet to a point 741.3 feet North 00 degrees 01 minute 14 seconds East of the Southwest corner of said Section 12; thence North 73 degrees 22 minutes 25 seconds East 320.4 feet; thence North 65 degrees 29 minutes 30 seconds East 276 feet; thence North 88 degrees 35 minutes 30 seconds East 410.3 feet; thence North 01 degree 50 minutes 52 seconds East 233.06 feet; thence North 89 degrees 58 minutes 46 seconds West 234 feet to meander point; thence North

54 degrees 53 minutes 39 seconds East, on meander line, 310.46 feet to meander post, including all lands between said meander line and Sherwood Drain; thence North 00 degrees 07 minutes 29 seconds West 323.8 feet to the place of beginning; thence North 89 degrees 03 minutes 12 seconds West 1004.39 feet; thence North 00 degrees 01 minute 14 seconds East 99.87 feet; thence North 89 degrees 03 minutes 12 seconds West 200 feet to the centerline of road; thence North 03 degrees 55 minutes 35 seconds East, on said centerline, 100.32 feet; thence South 89 degrees 03 minutes 12 seconds East 1193.8 feet; thence South 1 degree 0 minutes 0 seconds East approximately 196 feet to the place of beginning.
Also Excepting Therefrom Commencing at the South Quarter post of said Section 12; thence South 90 degrees 0 minutes 0 seconds East 155 feet; thence North 0 degrees 0 minutes 0 seconds East 650 feet; thence Southwesterly 1050 feet along a curve to the left, identified on the Baseline Documentation Map as the "main road" and a chord that bears South 60 degrees 0 minutes 0 seconds West 970 feet; thence South 15 degrees 0 minutes 0 seconds East 170 feet to the South Section line; thence South 90 degrees 0 minutes 0 seconds East approximately 645 feet to the place of beginning.

Part of Tax Item No. 11-21-0012-0003-04-3

PARCEL 2:
The Easterly 657.5 feet of the following: That part of the North Half of the Northwest Quarter of Section 13, Town 3 South, Range 17 West, described as follows: Commencing at the North Quarter post of said Section 13; thence North 89 degrees 08 minutes 30 seconds West, along the North line of said Section, 2563.2 feet to the Easterly line of Highway M-140; thence 1000 feet on a 2939.93 foot radial curve right, a chord distance of South 02 degrees 09 minutes West 995.19 feet to a point that is parallel to and 66.00 feet East of the West line of said Section; thence South 00 degrees 07 minutes 23 seconds West, parallel with the West line of said Section, 179.67 feet to a clear vision area; thence South 29 degrees 41 minutes 01 second East, along said clear vision area line, 168.97 feet to a point on the South line of the North Half of the Northwest Quarter of said Section, 150.00 feet South 89 degrees 10 minutes 50 seconds East of the Southwest corner of the North Half of the Northwest Quarter of said Section; thence South 89 degrees 10 minutes 50 seconds East, along said South line, 2508.2 feet to the Southeast corner of the North Half of the Northwest Quarter of said Section; thence North 00 degrees 23 minutes 30 seconds East 1318.4 feet, along the North and South Quarter line of said Section, to the place of beginning.
Excepting Therefrom Commencing at the North Quarter post of Section 13; thence South 0 degrees 0 minutes 0 seconds West 50 feet; thence South 90 degrees 0 minutes 0 seconds West 627.9 feet; thence North 0 degrees 0 minutes 0 seconds East 50 feet; thence North 90 degrees 0 minutes 0 seconds East 627.9 feet.

Part of Tax Item No. 11-21-0012-0003-04-3

PARCEL 3 - DELETED

PARCEL 4:
That part of the Southeast Quarter of Section 12, Town 3 South, Range 17 West, described as follows: Commencing at the East Quarter corner of said Section 12; thence South, along the East line of said Section, 675.00 feet; thence North 89 degrees 01 minute 34 seconds West 306.59 feet; thence South 649.00 feet to the center of a row of Maple trees; thence North 88 degrees 18 minutes 00 seconds West, along the centerline of said Maple trees, 1425.70 feet; thence continuing along said centerline of Maple trees, North 87 degrees 31 minutes 00 seconds West 275.7 feet; thence North 88 degrees 15 minutes 06 seconds West 633.85 feet to a point on the North and South Quarter line of said Section, 25.20 feet North 00 degrees 07 minutes 29 seconds West of the Southwest corner of the North Half of the Southeast Quarter of said Section; thence North 00 degrees 07 minutes 29 seconds West, along said North and South Quarter line, 1288.94 feet to the center of said Section; thence South 89 degrees 03 minutes 12 seconds East, along the East and West Quarter line of said Section, 2643.78 feet to the place of beginning.

Tax Item No. 11-21-0012-0014-06-1

PARCEL 5:
Part of the Northwest Quarter of Section 13, Town 3 South, Range 17 West, described as follows: Commencing at the North Quarter corner of said Section 13; thence North 89 degrees 08 minutes 30 seconds West, along the North line of said Section, 2563.20 feet to the Easterly line of Highway M-140; thence 1000.00 feet around a curve to the right whose radius is 2939.93 feet and whose chord bears South 02 degrees 09 minutes West 995.19 feet to a point that is parallel to and 66.00 feet East of the West line of said Section; thence South 00 degrees 07 minutes 23 seconds West, parallel with the West line of said Section, 179.67 feet to a clear vision area; thence South 29 degrees 41 minutes 01 second East, along said clear vision area line, 168.97 feet to a point on the South line of the North Half of the Northwest Quarter of said Section, 150.00 feet South 89 degrees 10 minutes 50 seconds East of the Southwest corner of the North Half of the Northwest Quarter of said Section; thence South 89 degrees 10 minutes 50 seconds East, along said South line, 2508.2

feet to the Southeast corner of the North Half of the Northwest Quarter of said Section; thence North 00 degrees 23 minutes 30 seconds East, along the North and South Quarter line of said Section, 1318.40 feet to the place of beginning. Excepting Therefrom the Easterly 657.5 feet.
Also Excepting Therefrom Commencing at the Southwest corner of the North Half of said Northwest Quarter; thence South 89 degrees 10 minutes 50 seconds East, along the South line of the North Half of said Northwest Quarter, 150.00 feet to the point of beginning of the land herein described; thence continuing South 89 degrees 10 minutes 50 seconds East, along said South line, 941.00 feet; thence North 00 degrees 07 minutes 23 seconds East, parallel with the West line of said Section, 400.00 feet; thence North 89 degrees 10 minutes 50 seconds West, parallel with the South line of the North Half of said Northwest Quarter, 1025.00 feet to the East line of a parcel of land described in Warranty Deed recorded in Volume 583 of Deeds, page 534, Berrien County Records; thence South 00 degrees 07 minutes 23 seconds West, along said East line, 254.39 feet to the M-140 Highway clear vision right-of-way line; thence South 29 degrees 41 minutes 01 second East, along the last described line, 168.97 feet to the place of beginning.

Tax Item No. 11-21-0013-0013-03-9

Commitment for Title Insurance
FIRST AMERICAN TITLE INSURANCE COMPANY.

First American Title Insurance Company, a California corporation ("Company"), for a valuable consideration, commits to issue its policy or policies of title insurance, as identified in Schedule A, in favor of the Proposed Insured named in Schedule A, as owner or mortgagee of the estate or interest in the land described or referred to in Schedule A, upon payment of the premiums and charges and compliance with the Requirements; all subject to the provisions of Schedules A and B and to the Conditions of this Commitment.

This Commitment shall be effective only when the identity of the Proposed Insured and the amount of the policy or policies committed for have been inserted in Schedule A by the Company.

All liability and obligation under this Commitment shall cease and terminate six (6) months after the effective Date or when the policy or policies committed for shall issue, whichever first occurs, provided that the failure to issue the policy or policies is not the fault of the Company.

The Company will provide a sample of the policy form upon request.

First American Title Insurance Company

Dennis J. Gilmore
President

Timothy Kemp
Secretary

FIRST AMERICAN TITLE INSURANCE COMPANY INCORPORATED SEPTEMBER 24, 1968 CALIFORNIA

CONDITIONS:

1. The term mortgage, when used herein, shall include deed of trust, trust deed, or other security instrument.
2. If the proposed Insured has or acquired actual knowledge of any defect, lien, encumbrance, adverse claim of other matter affecting the estate or interest or mortgage thereon covered by this Commitment other than those shown in Schedule B hereof, and shall fail to disclose such knowledge to the Company in writing, the Company shall be relieved from liability for any loss or damage resulting from any act of reliance hereon to the extent the Company is prejudiced by failure to so disclose such knowledge. If the proposed Insured shall disclose such knowledge to the Company, or if the Company otherwise acquires actual knowledge of any such defect, lien, encumbrance, adverse claim or other matter, the Company at its option may amend Schedule B of this Commitment accordingly, but such amendment shall not relieve the Company from liability previously incurred pursuant to paragraph 3 of these Conditions and Stipulations.
3. Liability of the Company under this Commitment shall be only to the named proposed Insured and such parties included under the definition of Insured in the form of policy or policies committed for and only for actual loss incurred in reliance hereon in undertaking in good faith (a) to comply with the requirements hereof, or (b) to eliminate exceptions shown in Schedule B, or (c) to acquire or create the estate or interest or mortgage thereon covered by this Commitment. In no event shall such liability exceed the amount stated in Schedule A for the policy or policies committed for and such liability is subject to the insuring provisions and Conditions and Stipulations and the Exclusions from Coverage of the form of policy or policies committed for in favor of the proposed Insured which are hereby incorporated by reference and are made a part of this Commitment except as expressly modified herein.
4. This Commitment is a contract to issue one or more title insurance policies and is not an abstract of title or a report of the condition of title. Any action or actions or rights of action that the proposed Insured may have or may bring against the Company arising out of the status of the title to the estate or interest or the status of the mortgage thereon covered by this Commitment must be based on and are subject to the provisions of this Commitment.
5. The policy to be issued contains an arbitration clause. All arbitrable matters when the Amount of Insurance is $2,000,000 or less shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. You may review a copy of the arbitration rules at http://www.alta.org/.

First American Title

Privacy Information

We Are Committed to Safeguarding Customer Information

In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our subsidiaries we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability

This Privacy Policy governs our use of the information that you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its Fair Information Values.

Types of Information

Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information

We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security

We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's Fair Information Values. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

Information Obtained Through Our Web Site

First American Financial Corporation is sensitive to privacy issues on the Internet. We believe it is important you know how we treat the information about you we receive on the Internet.

In general, you can visit First American or its affiliates' Web sites on the World Wide Web without telling us who you are or revealing any information about yourself. Our Web servers collect the domain names, not the e-mail addresses, of visitors. This information is aggregated to measure the number of visits, average time spent on the site, pages viewed and similar information. First American uses this information to measure the use of our site and to develop ideas to improve the content of our site.

There are times, however, when we may need information from you, such as your name and email address. When information is needed, we will use our best efforts to let you know at the time of collection how we will use the personal information. Usually, the personal information we collect is used only by us to respond to your inquiry, process an order or allow you to access specific account/profile information. If you choose to share any personal information with us, we will only use it in accordance with the policies outlined above.

Business Relationships

First American Financial Corporation's site and its affiliates' sites may contain links to other Web sites. While we try to link only to sites that share our high standards and respect for privacy, we are not responsible for the content or the privacy practices employed by other sites.

Cookies

Some of First American's Web sites may make use of "cookie" technology to measure site activity and to customize information to your personal tastes. A cookie is an element of data that a Web site can send to your browser, which may then store the cookie on your hard drive.

FirstAm.com uses stored cookies. The goal of this technology is to better serve you when visiting our site, save you time when you are here and to provide you with a more meaningful and productive Web site experience.

Fair Information Values

Fairness We consider consumer expectations about their privacy in all our businesses. We only offer products and services that assure a favorable balance between consumer benefits and consumer privacy.

Public Record We believe that an open public record creates significant value for society, enhances consumer choice and creates consumer opportunity. We actively support an open public record and emphasize its importance and contribution to our economy.

Use We believe we should behave responsibly when we use information about a consumer in our business. We will obey the laws governing the collection, use and dissemination of data.

Accuracy We will take reasonable steps to help assure the accuracy of the data we collect, use and disseminate. Where possible, we will take reasonable steps to correct inaccurate information. When, as with the public record, we cannot correct inaccurate information, we will take all reasonable steps to assist consumers in identifying the source of the erroneous data so that the consumer can secure the required corrections.

Education We endeavor to educate the users of our products and services, our employees and others in our industry about the importance of consumer privacy. We will instruct our employees on our fair information values and on the responsible collection and use of data. We will encourage others in our industry to collect and use information in a responsible manner.

Security We will maintain appropriate facilities and systems to protect against unauthorized access to and corruption of the data we maintain.

CORRECTION TO MEMORANDUM OF AMENDMENT TO LAND CONTRACT

The Memorandum of the Second Amendment to Land Contract between CAROLINE M. WANG, also known as Lonny Myers, as Trustee of the Caroline M. Wang Trust dated June 28, 1993, as Seller, and LUTRA ASSOCIATES LIMITED PARTNERSHIP, an Illinois limited partnership, which was recorded on November 19, 1996, in the Office of the Recorder of Berrien County, Michigan, at Liber 1782, Page 80, is hereby corrected by the substitution of the following legal description of the real property involved, in order to correct certain errors in the legal description contained in the original Memorandum:

That part of the North Half of the Northwest Quarter of Section 13, Township 3 South, Range 17 West, Watervliet Township, Berrien County, Michigan, described as follows, to-wit: - Commencing at the North Quarter Post of said Section 13; thence North 89 Degrees 8'30" West 2563.2 Feet to Easterly Line of Highway M-140; thence 1000 Feet on a 2939.93 Foot Radial Curve Right a Chord Distance of South 2 Degrees 9' West 995.19 Feet; thence South 0 Degrees 7'23" West 179.67 Feet; thence South 29 Degrees 41'01" East 168.97 Feet; thence South 89 Degrees 10'50" East 2508.2 Feet; thence North 0 Degrees 23'30" East 1318.4 Feet to the Place of Beginning, but excluding the 657.5 Feet thereof sold to Halsted Property Exchange Limited Partnership pursuant to a Land Contract dated March 4, 1988, a Memorandum of which was recorded on March 21, 1988, at Liber 1336, Page 221, and amended by an Amendment to Memorandum recorded on April 15, 1988, at Liber 1338, Page 592, and further amended by a second Amendment to Memorandum recorded on August 26, 1988, at Liber 1354, Page 163, and which was assigned to K.O.O. Properties Limited Partnership on October 7, 1988, a Memorandum of which assignment was recorded on October 7, 1988, at Liber 1359 Page 11

In witness whereof, the parties have executed this Correction to Memorandum of Second Amendment to Land Contract this 10th day of April, 1997.

RECIPROCAL EASEMENT AND OPERATING AGREEMENT

THIS RECIPROCAL EASEMENT AND OPERATING AGREEMENT ("Agreement") made as of this 6th day of May, 1997 by and among ALMON L. HOFFMAN, of Shelter Cove, California ("Hoffman"); LUTRA ASSOCIATES L.P., an Illinois limited partnership ("Lutra"); CAMP RONORA L.L.C., a Delaware limited liability company which is a general partner of Lutra ("Camp Ronora"); CAROLINE M. WANG, a.k.a. LONNY MYERS, not individually but solely as trustee of the Caroline M. Wang Trust dated June 28, 1993 (the "Trust"), and The Redtail Center, a Michigan nonprofit corporation ("Redtail").

RECITALS:

WHEREAS, Hoffman is the owner of a parcel of a property in Berrien County, more particularly described on Exhibit "A" attached hereto and made a part hereof (the "Original Hoffman Property"); and

WHEREAS, Hoffman, the Trust and Lutra have entered into a Land Contract, dated May 6, 1997 (the "Hoffman Land Contract"), pursuant to which Hoffman has agreed to sell to Lutra, as assignee of the Trust, the portion of the Original Hoffman Property more particularly described on Exhibit "B" attached hereto and made a part hereof (the "Lutra Property"); and

WHEREAS, the portion of the Original Hoffman Property that has not been sold to Lutra pursuant to the Hoffman Land Contract has been retained by Hoffman for his own use (the "Retained Hoffman Property"); and

WHEREAS, Camp Ronora is the owner, as purchaser from the Trust under a Land Contract originally dated March 14, 1988, between predecessors to Camp Ronora and the Trust (the "Camp Ronora Land Contract"), of a parcel of property adjacent to the Original Hoffman Property more particularly described on Exhibit "C" attached hereto and made a part hereof (the "Camp Ronora Property"); and

WHEREAS, as part of the consideration for the Lutra Property under the Land Contract, Camp Ronora, as general partner of Lutra, has caused the Trust to release a portion of the Camp Ronora Property from the Camp Ronora Land Contract and convey it to Hoffman, which portion is more particularly described on Exhibit "D" attached hereto and made a part hereof (the "New Hoffman Property"); and

WHEREAS, the Trust is the owner of a parcel of property located between the Camp Ronora Property and the Lutra Property, which is more particularly described on Exhibit "E" attached hereto and made a part hereof (the "Trust Property") and, pursuant to a Second Amendment to Land Contract dated November 18, 1996, the Trust has agreed to sell a portion of the Trust Property to Lutra, and has granted Lutra certain rights of first refusal with respect to sales of the remainder of the Trust Property; and

WHEREAS, the Lutra Property, the Retained Hoffman Property, the New Hoffman Property, the Camp Ronora Property, and the Trust Property constitute all of the properties that border on and contain a body of water commonly known as Lake Sherwood (the "Lake"); and

WHEREAS, Redtail is a qualified conservation organization as defined in §170(h) of the Internal Revenue Code, which has as one of its purposes the preservation of the natural habitat of the ecosystem consisting of the Lake and the surrounding wetlands and fields; and

WHEREAS, Lutra wishes to grant to Redtail an easement which will restrict in perpetuity the uses that may be made of the Lutra Property; and

WHEREAS, the parties also wish to set forth their mutual agreements with respect to the usage of the Lake and land;

NOW, THEREFORE, in consideration of the foregoing recitals which are hereby incorporated into and made a part of this Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties hereto, the parties agree as follows:

1. *Conservation Easement Grant.* Hoffman hereby grants, bargains, sells and conveys to Redtail its successors, assigns, mortgagees, lessees, sub-lessees, employees, agents, customers, licensees and invitees, an irrevocable easement in perpetuity (the "Conservation Easement"), for conservation purposes, over the Lutra Property (the "Conservation Easement Area"), to have and to hold the Conservation Easement unto Redtail against every person lawfully claiming or to claim the same or any part thereof by, through or under Hoffman or Lutra, free of charge. The Conservation Easement is granted by Hoffman solely pursuant to the terms of the Lutra Land Contract and shall be treated as having been granted by Lutra. In no event shall the Conservation Easement have any effect upon the Retained Hoffman Property or New Hoffman Property. The purpose of the Conservation Easement is to protect the natural habitat of the fish, wildlife and plant life of the natural ecosystem consisting of the Lake and its surrounding wetlands and fields. In accordance with such purpose, no portion of the Conservation Easement Area may be used for any form of commercial, industrial, or residential development, including without limitation the construction of single or multi-family housing or residential condominiums, or the subdivision of the Conservation Easement Area into residential or commercial lots. The following shall be the only permitted uses of the Conservation Easement Area: camping, nature studies, and similar activities, which may be carried out in conjunction with the activities of Camp Ronora. Permitted uses for the Conservation Easement Area may include the construction of a limited number of structures that are consistent with such usage.

2 *Easement on Hoffman Property.* Hoffman hereby grants, bargains, sells and conveys to Lutra, its successors, assigns, mortgagees, lessees, sub-lessees, employees, agents, customers, licensees and invitees, (a) an irrevocable easement over and across the New Hoffman Property and Retained Hoffman Property, at a location to be specified by Hoffman in his sole discretion, for the purpose establishing a nature trail to connect the Lutra Property with the Camp Ronora Property; and (b) an irrevocable easement restricting the development of the New Hoffman Property and Retained Hoffman Property. Pursuant thereto, neither the New Hoffman

Property nor the Retained Hoffman Property may be used for any form of commercial, industrial, or residential development, including without limitation the construction of single or multi-family housing or residential condominiums, or the subdivision of the Conservation Easement Area into residential or commercial lots. The following shall be the only permitted uses of the New Hoffman Property or the Retained Hoffman Property: the construction of not more than three family owned dwellings and outbuildings.

3. *Reciprocal Easements with Respect to Use of the Lake.* Each of the parties hereto that owns an interest in property that borders on, or includes a portion of the Lake, hereby agrees to provide the following reciprocal easements with respect to each of the other parties, and their respective successors, assigns, mortgagees, lessees, sub-lessees, employees, agents, customers, licensees and invitees:

A. Each party agrees that it will not fence in any portion of the Lake that is located on its property.

B. Each party agrees that it will limit its portion of the Lake to the personal recreational use of itself and its personal invitees (including, in the case of Camp Ronora, groups that are using its camp). For this purpose, recreational use shall include only fishing, swimming, and the use of canoes, rowboats, and small sailboats.

C. In no event shall any party permit the use of any motor boat (inboard or outboard), jetski or similar device on its portion of the lake, without the prior consent of each other party. This restriction shall not apply to electric trolling motors, or to limited usage of powered boats for weed removal or other maintenance.

D. Nothing contained herein shall in any way be construed to limit the right of each party to limit or prohibit hunting on its portion of the Lake or adjoining property.

E. Each party hereto shall indemnify and hold harmless any other party against any liability or claim of liability to which such other party may be subject by reason of any injury suffered by any person using any portion of the Lake as the invitee or guest of the first party.

4. *Right of First Refusal.* Hoffman hereby agrees that Lutra (including for all purposes of this Section 4 any successor to Lutra as either a permitted assignee under the Hoffman Land Contract or as owner of the Lutra Property) shall have a right of first refusal on the sale, conveyance, lease or other transfer of the Retained Hoffman Property and/or the New Hoffman Property or any portion thereof, or any beneficial interest therein (hereinafter collectively referred to as a "Sale"). If Hoffman proposes a Sale, Hoffman shall notify Lutra of such proposed Sale in writing, which notice shall include a true and complete copy of all agreements governing the terms of such proposed Sale, not less than thirty (30) days prior to the proposed closing date. Upon receipt of such notice, Lutra (provided that it is not then in default under the Hoffman Land Contract) may, by written notice to Hoffman within thirty (30) days after receipt of such notice, elect to acquire the Retained Hoffman Property and/or the New Hoffman Property, or the portion thereof or interest therein covered by the proposed Sale, at the same price and on the same terms and conditions set forth in the proposed Sale. If the proposed purchaser has deposited earnest money or made a similar good faith deposit or prepayment, Lutra's notice shall be accompanied by a deposit in the same form and amount. The acquisition by Lutra shall be closed within ninety (90) days after Lutra notifies Hoffman that it elects to exercise its right of first refusal hereunder (or such later date as the parties may agree to), and, if Lutra fails to close the acquisition by such date (or sooner notifies Hoffman in writing that it is rescinding its election), Hoffman may consummate the Sale with the party identified in the notice and at the same price and on the same terms as set forth therein within sixty (60) days after either the expiration of such ninety (90) day period or the date on which Lutra so notifies Hoffman).

Any Sale after the expiration of such sixty (60) day period, or with a different party, at a different price, or on materially different terms or conditions, shall require that a new notice be given as provided above. Nothing in the preceding sentence shall be construed to mean that Lutra shall not be liable for any damages provided in the contract of Sale if it fails to consummate the Sale after electing to do so, including forfeiture of any earnest money deposit. The terms of this Section 4 shall not apply to any transfer of the Retained Hoffman Property, the New Hoffman Property, or any portion thereof or beneficial interest therein to any descendant of Hoffman, the spouse of any such descendant, or any trust for the benefit of any such descendant or spouse, provided that the interest so transferred shall remain subject to Lutra's rights as set forth herein.

5. *Private Easements Appurtenant.* Except for the Conservation Easement, the easements created hereby are for the sole benefit of the Lutra Property, the Retained Hoffman Property, the New Hoffman Property, the Camp Ronora Property, and the Trust Property, as applicable, the owners of such properties, and their respective successors, heirs, assigns, tenants, agents, employees, contractors, suppliers, invitees and guests. Nothing contained herein shall be construed to grant any rights to the general public or to any private or public utility company or governmental authority or agency to use or enter upon any of such properties (other than to supply utility service to such properties with the consent of the owner thereof).

6. *Covenants Running with the Land.* The Easements, covenants and restrictions set forth in this Agreement shall run with the properties benefit thereby and shall be binding upon the grantors thereof and their respective tenants, successors and assigns and shall remain in full force and effect and shall be unaffected by any change in ownership of any of such properties or by any change in use, demolition, reconstruction, expansion or other circumstances, except as specified herein.

7. *Severability.* If any provision of this Agreement, or portion hereof, or the application hereof to any person or circumstances, shall to any extent be held invalid, inoperative or unenforceable, the remainder of this Agreement, or the application of such provision or portion hereof to any other person or circumstances, shall not be affected thereby, and each provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

8. *Amendment.* This Agreement may only be amended, modified, or terminated by an agreement in writing, executed and acknowledged by Redtail (or its assignee or successor) and the then current owners of the Lutra Property, the Retained Hoffman Property, the New Hoffman Property, the Camp Ronora Property and the Trust Property.

9. *Applicable Law.* This Agreement shall be construed in accordance with the laws of the State of Michigan.

10. *Enforceability.* Upon default by any party in the performance of its obligations under the terms of this Agreement, and failure of such party to cure such default within ten (10) days after the delivery of written notice from any non-defaulting party (or, in the case of a default which cannot be cured within a ten-day period, to commence actions to cure such default within said ten-day period and work diligently thereafter to cure such default), then for as long as the default continues any other party shall have the right at its sole election to obtain specific performance by injunction or to pursue any other remedy available at law or in equity. Notwithstanding anything in the foregoing to the contrary, if any party fails to perform its obligations after the aforesaid notice and opportunity to cure, any other party may perform such obligations and shall be entitled to reimbursement of actual costs from the non-performing party.

11. *Notices.* All notices required or permitted to be given by the terms of this Agreement shall be construed to mean notice in writing signed by or on behalf of the party giving the same, and the same may be served upon the other party or his agent personally, by

reputable overnight delivery company, by facsimile transmission or by registered or certified mail. All notices and demands hereunder shall be in writing by registered or certified mail. The mailing of a notice or demand by registered or certified mail to the following addresses, or to such other address as a party may specify by notice given in accordance herewith shall be sufficient service thereof. Any notice or demand mailed as provided herein shall be deemed to have been given or made on the date of mailing.

If to Hoffman:

173 Seaview Rd.
Shelter Cove CA 95589

If to the Trust:

4423 Valli Vista Blvd.
Colorado Springs, CO 80915

If to Lutra, Camp Ronora, or Redtail:

826 West Armitage Avenue
Chicago, IL 60614

12. *Counterparts.* This Agreement may be executed in any number of identical counterparts, all of which together shall be construed as a single agreement. Counterparts may be executed and acknowledged on different dates, and the Agreement shall take effect when all counterparts have been executed.

IN WITNESS WHEREOF, the parties hereto have caused counterpart signature pages of this Agreement to be executed as of the date first written above.

ARTICLE II

Rights Reserved

I may at any time and from time to time during my lifetime by an instrument signed by me and delivered to the Trustees:

1. Amend or revoke this instrument in whole at any time or in part from time to time in any respect;

2. Remove any Trustee and appoint a successor or successors;

3. Add to the trust estate by delivering any property thereto;

4. Cause the proceeds of any policies of insurance on my life or any other death benefits to be made payable to the trust estate; and/or

5. Withdraw all or any part of any property from time to time comprising the trust estate, in which case no Trustee shall have any further duties or responsibilities with respect to any property so withdrawn.

ARTICLE III

Payments During My Lifetime

1. During my lifetime, the net income and principal of the trust estate shall be paid to or applied for my benefit at such time and in such manner as I may from time to time direct in writing, but in the absence of such written directions, or in the event of my illness or disability, the Trustees may pay to or

Liber: 2928 Page: 1743
Liber/Page stamp electronically added

beneficiary or beneficiaries (including claims for alimony, separate maintenance, maintenance and child support).

3. Except as otherwise herein expressly provided, upon the death of any beneficiary hereunder, any accrued or undistributed income which would have been payable to such beneficiary had such beneficiary continued to live shall be paid as income to the next beneficiary succeeding in interest.

ARTICLE VII

Powers

1. In the administration of the trust estate, the Trustees shall have all of the following powers and rights:

(a) To manage, operate and control the trust estate and to collect the income therefrom;

(b) To retain, without liability for loss or depreciation resulting from such retention, property, real or personal, received by the Trustees at the inception hereof, or later received or acquired, for such time as they shall deem advisable, although such property may be unproductive or underproductive, or for other reasons may not be of the character considered proper or prescribed by law for the investment of trust funds, and although it represents a large percentage of the trust estate so that, as a result of such retention, the trust estate may lack diversification of investments;

(c) To sell, exchange, assign, transfer and convey any trust assets, and grant options to purchase or acquire any trust assets, at such price or prices, and upon such terms and conditions, either at a public or private sale or sales, and either for cash or on credit, or part cash and part credit, or on such other terms as the Trustees deem necessary or advisable;

(d) To invest and reinvest funds coming into their hands, whether as income or as the proceeds from the sale or conversion of property, in stocks (common or preferred), common trust funds, mutual funds, notes, debentures, bonds, and other securities, real estate mortgages, improved or

Liber: 2928 Page: 1744
Liber/Page stamp electronically added

unimproved real estate (either within or without the State of Michigan) or in any other income or non-income producing property, it being my intention that the Trustees, in making investments or reinvestments, shall not be restricted to investments for trustees as fixed by statute or any other law;

(e) To make any division or distribution in cash or in kind, or partly in cash and partly in kind or in undivided interests or in different assets or in disproportionate interests in assets and no adjustments shall be made to compensate for a disproportionate allocation of unrealized gain for Federal income tax purposes; and to determine the value of any property so divided or distributed, and for such purposes the judgment of the Trustees concerning the propriety thereof and the value of any property shall be final and conclusive upon all interested persons;

(f) To borrow money for any purpose the Trustees deem necessary or advisable in connection with the administration of the trust estate from any person or entity (including any corporate Trustees) and, for that purpose, to mortgage or pledge any property comprising the trust estate; to replace or renew any mortgage or mortgages or other encumbrances upon any part of the trust estate; and to make payments of principal on any such mortgage from either principal or income of the trust estate;

(g) To deposit all or any portion of the trust estate in a savings, checking, agency or brokerage account or safety deposit box; and, during such time as there shall be more than one Trustee acting hereunder, to authorize any one or more of their number to make deposits therein and withdrawals therefrom;

(h) Subject to the provisions of Article IV above, to use as much of the trust estate as may be necessary or advisable to pay taxes or other charges placed upon, levied against, or incurred with respect to the trust estate, including the reasonable compensation of the Trustees and such agents and attorneys as are necessary in the handling of the trust estate;

(i) To employ attorneys, accountant, investment advisors and other agents and to pay them reasonable compensation, including the right to employ a Trustee hereof personally as attorney, accountant, investment advisor or other agent for the trust estate and to pay reasonable compensation to such Trustee for such services;

(j) To delegate to a Co-Trustee for any period of time any and all of the Trustee's rights, powers and duties;

Liber: 2928 Page: 1745
Liber/Page stamp electronically added

(k) To determine the manner of ascertainment of income and principal and the allocation or apportionment between income and principal of all receipts and disbursements; to establish out of income and credit to principal reasonable reserves for the depreciation of tangible property; and, except as to Fund A, to charge and apportion all or any portion of the regular annual compensation of any Trustee between income and principal, regardless of any rule or statute to the contrary;

(l) To purchase and maintain insurance (including public liability insurance) at the expense of the trust estate of such nature and in such form or amounts as the Trustees deem advisable;

(m) To vote personally or by general or limited proxy any stock or other securities included in the trust estate; to consent to the reorganization, recapitalization, consolidation, merger or liquidation of, or any other action proposed to be taken by, any corporation or other organization the securities of which constitute a part of the trust estate, and in connection therewith to enter into voting trusts or similar arrangements, participate in foreclosures, deposit and/or assign securities to or with any protective or other committee upon such terms as the Trustees shall deem appropriate, and to take such other steps as they deem necessary or advisable for the protection of such securities; to exercise any conversion privilege or subscription right given them as the owner of any security constituting a part of the trust estate; and to accept and hold as part of the trust estate the securities resulting from any such reorganization, action, conversion or subscription;

(n) To operate, maintain, repair, rehabilitate, alter, improve, lease (for any period of time even extending beyond the duration of the trust estate), protect, partition, subdivide and release, convey or assign any right, title or interest in or to any real estate which may at any time be part of the trust estate; to dedicate and vacate parks, streets, highways or alleys, and to vacate subdivisions, or any part thereof, and to grant easements or charges of any kind;

(o) To take any action with respect to conserving or realizing upon the value of any trust assets with respect to foreclosures, reorganizations, or other changes affecting the trust assets; to collect, pay, contest, compromise, or abandon demands of or against the trust estate, wherever situated; and to execute contracts, notes, conveyances, and other instruments, including instruments containing covenants and warranties binding upon and creating a charge

LIBER 1809 PAGE 740

Liber: 2928 Page: 1746
Liber/Page stamp electronically added

against the trust estate, and containing provisions excluding personal liability;

(p) To accept property from any source, by deed, bequest, devise or any other form of assignment and to add the same to the trust estate;

(q) To enter into any transaction authorized by this Article with trustees, executors, or administrators of other trusts or estates in which any beneficiary is also a Trustee hereunder; and in any such transaction to purchase assets, or make loans on notes secured by trust assets, even though similar or identical property constitutes all or a large portion of the balance of the trust estate, and to retain any such property or note as though it had been an original part of the trust estate;

(r) To cause any property which may at any time constitute a part of the trust estate to be held or registered in its own name, or in the name of a nominee, or (if personal property) in such form that title will pass by delivery, with or without indicating that such property is held in trust;

(s) To give receipts and discharges, and no purchaser, mortgagee, or other person dealing with the Trustees shall be under any obligation to see to the application of any purchase, mortgage, or other money or property paid or delivered to the Trustees, or to inquire whether or not the Trustees have or are properly exercising any power or right sought to be exercised by them hereunder;

(t) To execute and deliver (and to bind the trust estate thereby without making themselves individually liable) any and all instruments or documents which the Trustees may consider necessary or advisable in the exercise of any of the powers hereinabove enumerated or otherwise in connection with the administration of the trust estate;

(u) To rely upon an affidavit, certificate, letter or other evidence reasonably believed to be genuine and on the basis of any such evidence to make any payment in distribution in good faith without liability;

(v) To appoint or remove from time to time by written instrument any person or qualified corporation, wherever located, as special Trustee as to part or all of the trust estate, including property as to which the Trustees do not act, and such special Trustee, except as specifically limited or provided by this or the appointing instrument, shall have all of the rights, titles, powers, duties, discretions and immunities of the Trustees; and

Liber: 2928 Page: 1747
Liber/Page stamp electronically added

(w) To perform other acts necessary or appropriate for the proper administration of the trust estate pursuant to the provisions of this Trust.

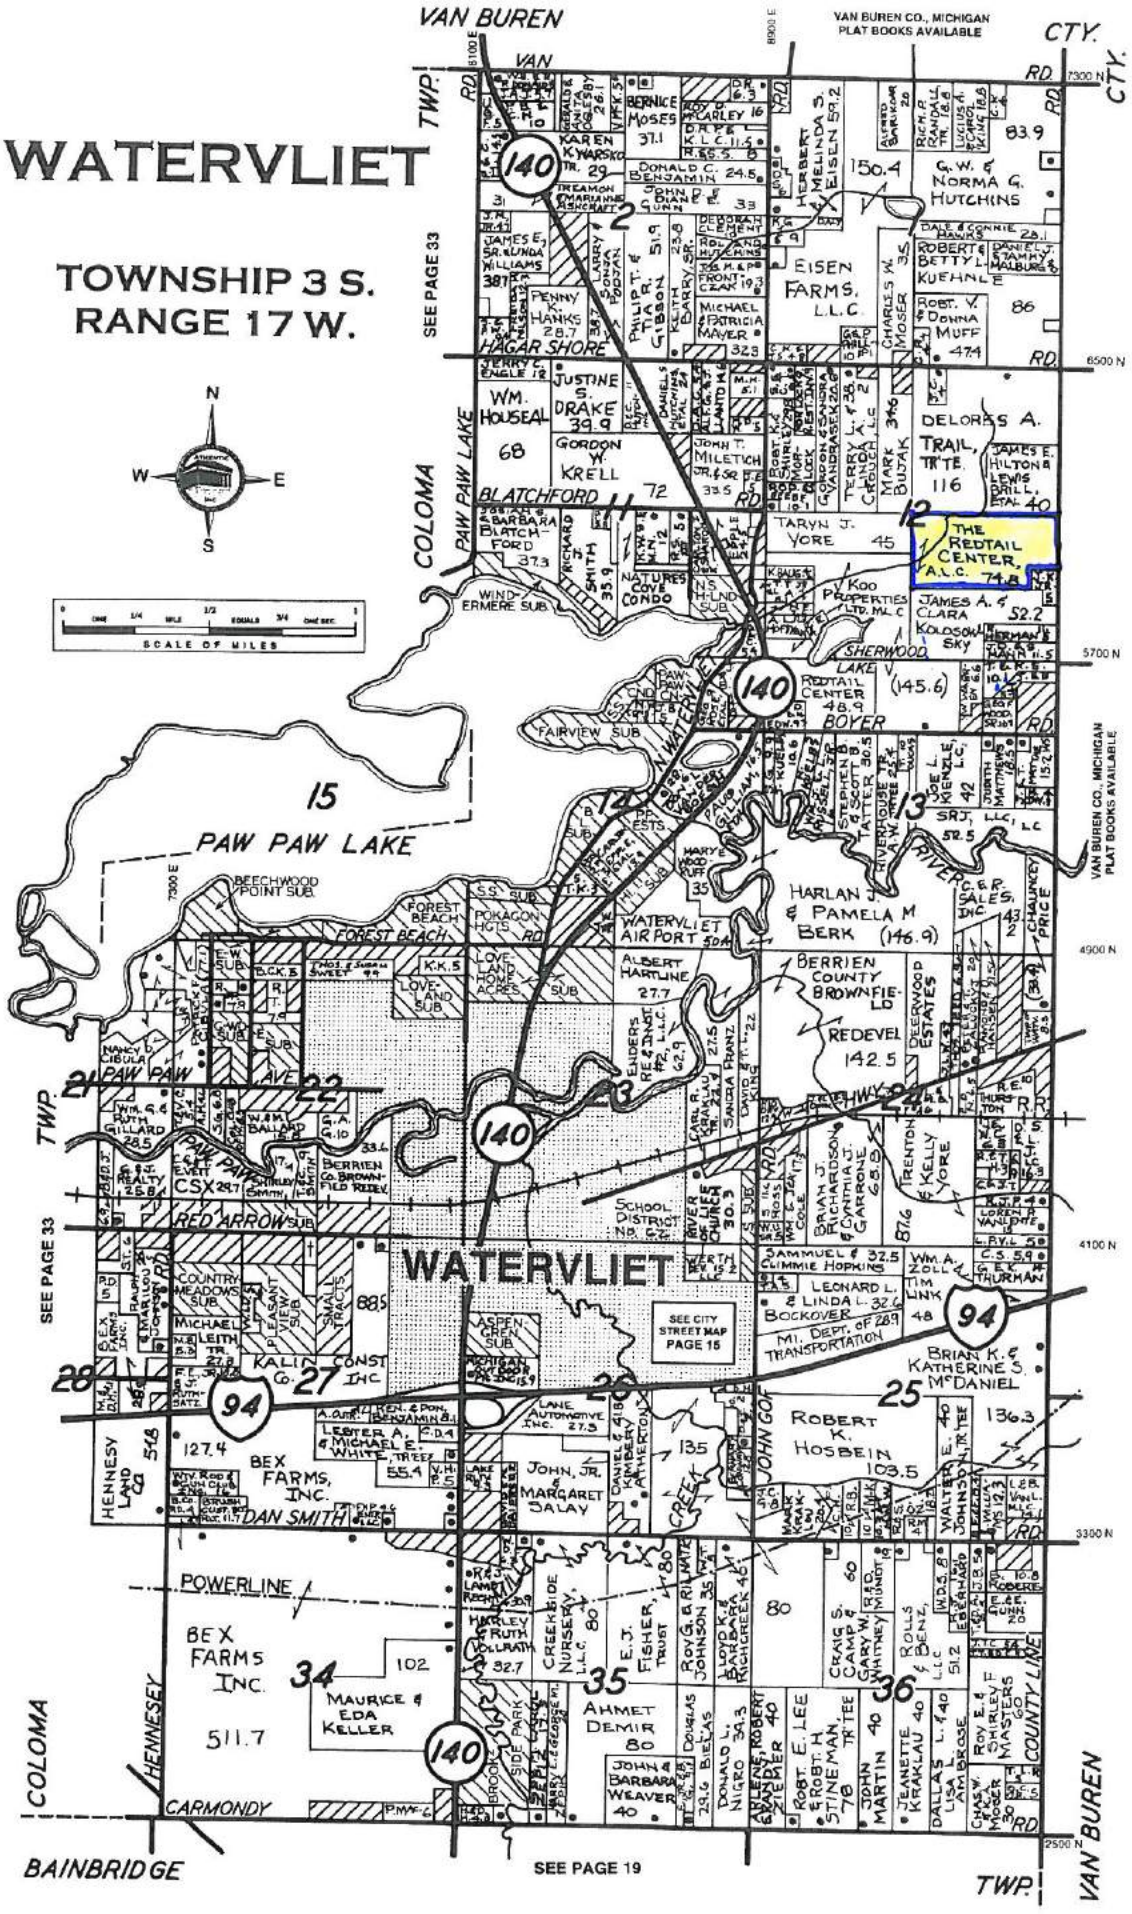

2. To the extent that any such requirement can legally be waived, no Trustees shall ever be required (a) to give any bond as Trustees; (b) to qualify before, be appointed by, or, in the absence of breach of trust, account to, any court; or (c) to obtain the order or approval of any court in the exercise of any power or discretion hereunder. In addition, I intend specifically that this Trust be exempt from registering before any court in Michigan under MCLA 700.801 or any subsequent statute.

3. I anticipate that the largest portion of the trust estate will consist of the real property which I own in Watervliet Township, Berrien County, Michigan, portions of which have been sold pursuant to various Land Contracts. Without limiting in any way the authority of my Trustee as set forth in this Article, my Trustee shall have full discretion to determine the most appropriate method of dividing the trust estate among my beneficiaries, which methods may include, without limitation, distributing portions of the property in kind to some children and cash to others, continuing to hold one or more Land Contracts on which the purchase price has not been paid in full and distributing payments as received or entering into agreements with the purchasers for the receipt of a cash payment in settlement of the remaining balance, or selling or assigning any portion of the property or the trust's rights under any Land
